

Board Report
December 2024

46 trips in November and 23 the first week of December...I'm thankful for a team of drivers that works hard to fill the gaps when others are on the road!

I am recruiting hard to get us back to being fully staffed on routes and to have a solid group of subs.

New development continues to occur in Benton and that is a great thing! There are a few routes I am looking at splitting into two as early as January.

Layne is current on all major repair orders and worked alongside the state inspector to complete our annual inspections last month.

I am continuing to assess where our needs are on bus types for purchase next school year. I hope to have purchase action items for Board approval next month.

Thank you to Riverside Grocery for catering our Thanksgiving meal on Friday, 11/22. An anonymous donor covered the meal and it was a great time of fellowship for our department.
