Senate Bill 187: Comprehensive School Safety Plan Purpose

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at WJUSD Superintendent's Office.

Safety Plan Vision

The primary purpose of our safety plan is to help school officials protect the lives and well-being of students and staff through emergency preparedness, to ensure prompt and appropriate responses of trained school personnel when a school crisis occurs. Rational and effective thinking on the part of each staff member is key to that aim. The safety plan is intended to help maximize safety by reducing panic and facilitating effective action before, during, and after a crisis.

Thorough emergency planning empowers school officials to effectively handle the unexpected, fluid events of emergencies. Not all emergency procedures outlined will fit every situation, despite best efforts. Administrators and staff must remain flexible and be prepared to promptly adapt their actions as necessary.

The most critical element in any crisis is to STAY CALM since students will mirror the attitude/actions of the adults around them. The ability to manage fear and remain calm in the midst of chaos is the most effective tool for minimizing the impact of any crisis.

Maintaining a physically safe environment is also critical to student success and is everyone's responsibility. Whitehead Elementary School and WJUSD officials work together towards ensuring that grounds and buildings are safe. We believe that our students have a right to learn in a safe environment. For example, this fall, site cameras were repaired, refocused, and additional cameras ordered. All lighting was inspected and repaired where needed. All doors and locks were inspected and repaired as needed. Window blinds were repaired/replaced. All buildings and grounds are regularly inspected and quickly repaired when issues are noted.

Our active PBIS Team continues to improve upon and implement SOAR and all school climate and culture activities and programs to support the social, emotional and academic needs of all students. In fact, we are currently participating in Yolo County led PBIS training and implementation to ensure current and best practices for our students. Such social-emotional readiness prepares our school's students for the unexpected and expected events of days.

Assessment of School Safety

Annual review and assessment of the current safety needs are conducted. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card. Last school year, faculty focused on and worked hard to build strong relationships with each student at Whitehead School. In determining the needs of the school community, student input was solicited and reviewed early last spring. Students were surveyed about the school climate. From the data collected, it was determined that generally students liked school and felt safe. They feel generally safe with the adults, and that the adults genuinely care for them, want the best for them, and do their best for them. Enrichment opportunities were offered last year by the school faculty and staff in the form of after school sports clubs, art club, etcetera. Students wanted more offerings, and longer recesses! There is an increasing family-like atmosphere at Whitehead Elementary School. Additionally, this year Whitehead is participating in the formal PBIS training and implementation. Teachers and Administration are developing more formal and positive systems to support behavior and safety on campus. Active anti-bullying education within the classrooms, safe reporting options and education are regularly reviewed. Anti bullying information is on our school website. The adults continue to stay visible and build strong relations with or students to ensure true safety as well as sense of safety among students.

Whitehead has systems in place ensuring that every student can receive the help that they need in order to thrive. Every student has access to Tier 1 (universal offerings) supports. Our school Wellness Team meets weekly to support students whose needs meet Tier 2 and Tier 3 criteria for support. This team included the school's Principal, Counselor, Behaviorist, Social Worker, Psychologist, IEP Manager, 504 Manager, Intervention Specialist. Additionally additionally, this team supports faculty, staff, and families. During these meetings, students are identified who have been struggling. Ideas and additional supports to assist them in targeted ways based on individual needs are reviewed and implemented.

Summary of Student Input/Participation

To follow up, a meeting with upper grade students was conducted September of 2022. Students reported that on campus they feel safe in general. A few reported that they do not at times feel safe outside due to the adjacent park - dogs or strangers intimidate them. They recommend keeping adults present at all times to keep the children safe - that is the most important way to keep them safe, they say, and of course, that is what Whitehead faculty and staff do at all times. The students report that socially the kids are not as mean in general this year, and that bullying is much less of a problem. Sometimes students are sneaky and the adults do not catch everything. Reporting problems is at times perceived as snitching, yet students reported largely that they feel quite safe going to adults for help anyway. They report that they know they are worth keeping safe and will speak up.

Our school's Youth/Student Advisory Council is underway, and will be comprised of a diverse group of students in grades 4 through 6. Several Whitehead members participated in Youth Development training this summer and are enjoying implementing the teachings this fall.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Whitehead Elementary School and the Woodland Joint Unified School District are committed to providing a safe environment for students, staff and visitors. Several strategies will be utilized to maintain a high level of school safety. Strategies include, but are not limited to:

- Consultation with local public safety agencies (Woodland Police Department/Woodland Fire Department)
- Consultation with risk management specialists (Cal OSHA)
- Continuing education and training of school staff (ALICE, CPR, Bullying Prevention & Intervention)
- Inspections and evaluations of school facilities (Cal-OSHA WJUSD IIPP Evaluation Process/Protocol)
- Evaluation of safety-related policies and procedures
- Annual review and revision of Comprehensive School Safety Plan (Yearly review of plan(activities) done by school site safety/SSC teams)

Such strategies will ensure that a safe and orderly environment, conducive to learning is maintained. Such strategies will also ensure compliance with existing laws related to school safety. This manual outlines several elements critical to maintaining a safe school environment.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

School district employees are mandated reporters and shall make a report whenever, in his/her professional capacity or within the scope of his/her employment, he/she has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. (Penal Code 11166)

Immediately or as soon as practicable after knowing or observing suspected child abuse or neglect, a mandated reporter shall make an initial report by telephone to Yolo County Child Welfare Services (530) 669-2355 or Woodland Police Department (530) 666-2411. Within 36 hours of knowing or observing the information concerning the incident, the mandated reporter shall then prepare and either send, fax, or electronically submit to Yolo County Child Welfare Services a written follow-up report, which includes a completed Suspected Child Abuse Report form (SS 8572). (Penal Code 11166, 11168)

For complete policies and procedures see Board Policy and Administrative Regulation BP 5141.4 Child Abuse Reporting Procedures available on the District Website under Board of Education and at: www.gamutonline.net/district/woodland/

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan - Classroom Emergency Protocols

The following BP and ARs give information on our disaster procedures. In addition, each site's crisis team has an Emergency Response binder which contains the comprehensive safety plan as well as our emergency policies and procedures. Each working space that has students or staff has a red emergency folder which contains lockdown, shelter in place, and evacuation procedures, emergency contact numbers, basic first aid information, class roster, and site evacuation maps. Drills are done with staff and students at least twice a year to practice the emergency procedures.

The school site is available to governmental agencies such as law enforcement and fire as directed and needed.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

The improvement in Whitehead Elementary School's California School Dashboard for Suspension Rate is a point of pride for the school. The growth went from Red to Green in a single school year! Based on Staff and Parental input, the factors for this growth and improvement is thought to be due to a positive change in school culture and climate. The staff have organized positive experiences for students including; Brag Tags for Academic Excellence and demonstrating Monthly Character Traits, Monthly Awards Assemblies to recognize students showing growth in English Language Arts and Mathematics as well as demonstrating Character Traits. Other supports for maintaining and improving the culture and climate of the school include; Weekly Class Meetings, Cooperative Learning strategies used daily to encourage participation and engagement, and Growth Mindset. A student store has been implemented and students earn SOAR tickets and principal Golden Eagle tickets to spend at the store. The teachers and principal do daily check-ins at the beginning of the school day for students with Chronic Absenteeism and students at-risk of suspensions. At this time, due to the pandemic, each teacher begins their school day with Social Emotional Learning lessons.

A student may be suspended or expelled for any of the causes listed in state Education Code 48900 through 48915 and Board Policies. A summary of the causes is listed in AR 5144.1

A student may be suspended or expelled for acts related to school activity or attendance that occur at any time, including, but not limited to (1) while the student is on school grounds; (2) while the student is going to or coming from school; (3) during the lunch period, whether on campus or off campus; or (4) during or while a student is going to or coming from a school-sponsored activity.

Suspension must be preceded by an informal conference with the student, unless the principal or designee believes an emergency exists and orders the student to immediately leave the school because the student's presence is a danger to persons or property, or is a threat to the academic program. In such cases the conference will be held as soon as practical, but within two (2) school days.

At the informal conference, the decision to suspend will be explained by the principal or the principal's designee. The conference will include the following steps: (1) The student will be informed of the reason for the disciplinary action and the evidence against them; (2) The student will be provided an opportunity to present their written and/or verbal statement and evidence in their defense. If the student needs assistance with a written statement, they will be assisted. Those statements will be attached to the school file copy of this form.

If not delivered at the time of the suspension, the Notice of Suspension shall be delivered or mailed to the parent/legal guardian within one (1) school day of the beginning of the suspension. State law (Education Code 48911) makes it the student's and parent/legal guardian's duty to respond to school official's request to attend a conference concerning his/her child's behavior. The conference may be held at the time of suspension or at re-entry.

The parent/legal guardians were given the Woodland Joint Unified School District Standards of Behavior at the start of the school year. Upon request, a school site can supply the parent/guardian/student with another copy of the document as well as any applicable policies or regulations.

Appeal of Suspension: The student/parent(s) may appeal a suspension. Parents shall put their request for appeal in writing, clearly stating the reason for the appeal, which shall be one or both of the following contentions: 1) Procedural due process was not followed or 2) The reason to suspend was not in compliance with District policies and procedures and/or law. Unless there is clear evidence that a procedural or legal violation and/or District procedures were violated, the school administration's decision to suspend will be upheld.

If someone other than the principal has suspended the student, the principal receives the appeal. Upon receipt of the written request, the principal shall delay the implementation of the suspension for one (1) day following the day of the request, if the appeal cannot be considered the day of the request. However, if the principal concludes that the student poses a danger to self or others or is a serious threat of disruption of the educational process, the principal shall not delay for one (1) day the implementation of the suspension. The principal will conduct fact finding in regards to the appeal and render a timely decision. Fact finding will include input from school administration and the person appealing the suspension. The decision of the Principal is final and, thus, ends the appeal process.

If the principal is not available within 24 hours of the request for appeal or if the principal initiated the suspension, the parent should appeal directly to the Executive Director of Student Support or designee. The Executive Director of Student Support or designee will conduct the fact finding in regards to the appeal and render a decision in a timely manner. The decision of the Director or designee is final and, thus, ends the appeal process.

(D) Procedures to Notify Teachers of Student Safety Concerns (EC 49079)

The Principal or designee shall inform the teacher(s) of each student who has engaged in, or is reasonably suspected of, any act during the previous three school years which could constitute grounds for suspension or expulsion under Education Code 48900, with the exception of the possession or use of tobacco products, or Education Code 48900.2, 48900.3, 48900.4, or 48900.7. This information shall be based upon district records maintained in the ordinary course of business or records received from a law enforcement agency. (Education Code 49079)

Information received by teacher(s) shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher. (Education Code 49079)

When a minor student has been found by a court of competent jurisdiction to have illegally used, sold or possessed a controlled substance or committed specified crimes involving serious acts of violence, the district police or security department may provide written notification to the Superintendent or designee. (Welfare and Institutions Code 828.1)

When informed by the court that a minor student has been found by a court to have committed any felony or any misdemeanor involving curfew, gambling, alcohol, drugs, tobacco products, carrying of weapons, a sex offense listed in Penal Code 290, assault or battery, larceny, vandalism, or graffiti, the Superintendent or designee shall so inform the school principal. (Welfare and Institution Code 827)

The principal shall disseminate this information to any counselor who directly supervises or reports on the student's behavior or progress. The principal also may inform any teacher or administrator he/she thinks may need the information so as to work with the student appropriately, avoid being needlessly vulnerable, or protect others from vulnerability. (Welfare and Institutions Code 827)

Any court-initiated information that a teacher, counselor or administrator receives shall be kept confidential and used only to rehabilitate the student and protect other students and staff. The information shall be further disseminated only when communication with the student, parent/guardian, law enforcement staff, and probation officer is necessary to rehabilitate the student or to protect students and staff. (Welfare and Institutions Code 827)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first, and shall then be destroyed. (Welfare and Institutions Code 827)

(E) Sexual Harassment Policies (EC 212.6 [b])

The Governing Board is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits sexual harassment or sexual violence of students at school or at school-sponsored or school-related activities. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant or respondent in alleging sexual harassment.

The district strongly encourages any student who feels that he/she is being or has been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult to immediately contact his/her teacher, the principal, or any other available school employee. Any employee who receives a report or observes an incident of sexual harassment shall notify the principal or a district compliance officer.

Complaints regarding sexual harassment shall be investigated and resolved in accordance with law and district procedures specified

in AR 1312.3- Uniform Complaint Procedures. Principals are responsible for notifying students and parents/guardians that complaints of sexual harassment can be filed under AR 1312.3 and where to obtain a copy of the procedures.

The Superintendent or designee shall take appropriate actions to reinforce the district's sexual harassment policy and to ensure that any complaints regarding sexual harassment are immediately investigated in accordance with administrative regulation. When the Superintendent or designee has determined that harassment has occurred, he/she shall take prompt, appropriate action to end the harassment and to address its effects on the victim.

The Superintendent or designee shall ensure that all district students receive age-appropriate instruction and information on sexual harassment. Such instruction and information shall include:

1. What acts and behavior constitute sexual harassment, including the fact that sexual harassment could occur between people of the same sex and could involve sexual violence
2. A clear message that students do not have to endure sexual harassment under any circumstance
3. Encouragement to report observed incidents of sexual harassment even where the alleged victim has not complained
4. A clear message that student safety is the district's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved
5. information about the district's procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made
6. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable

Any student who engages in sexual harassment at school or at a school-sponsored or school-related activity is in violation of this policy and shall be subject to appropriate interventions and/or disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account. Any student who engages in sexual violence at school or at a school-sponsored or school-related activity is in violation of this policy and shall be subject to appropriate interventions and/or disciplinary action, up to and including suspension and/or expulsion.

Any staff member found to have engaged in sexual harassment or sexual violence toward any student shall be subject to discipline up to and including dismissal in accordance with applicable policies, laws, and/or collective bargaining agreements.

The Superintendent or designee shall maintain a record of all reported cases of sexual harassment to enable the district to monitor, address, and prevent repetitive harassing behavior in district schools.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

WJUSD Dress Code Policy

Our goals are to promote school safety and enhance the learning environment, while at the same time discourage distractions that inhibit learning. If a student's dress is not in accordance with this policy, any staff member may ask the student to make an appropriate correction.

1. Student dress shall be safe and appropriate, and not disturb the educational environment. (For example: collars or bracelets with spikes and clothing with revealing holes and cutouts are inappropriate for school wear.)
2. Clothing may not glorify, advertise, or reference drugs, alcohol, tobacco, tobacco products, violence, vulgarity, sexual behavior, or obscenities in any way, shape or form.
3. Footwear must be worn at all times. Footwear must be safe, practical, and not limit student participation in school activities.
4. Clothing, backpacks, tattoos, and other adornment may not demonstrate or suggest gang-related symbols, or colors. No bandanas are allowed at school.

5. Undergarments/underwear must be covered at all times.
6. Shirts and blouses must cover the stomach and chest. Shirts and pants/skirts must be touching in both front and back, and shirts must not be see-through or strapless.
7. Clothing must cover buttocks completely whether standing, sitting, walking, or bending.

Generally, students who do not follow the dress code will be referred to the office to correct the issue. Corrective action may include changing into PE clothes, wearing a t-shirt provided by the school or in certain circumstances being sent home to change. All corrective actions will be reported to parents/guardians.

For additional information, see BP and AR 5132 Dress and Grooming available on District website under Board of Education and at <http://www.gamutonline.net/district/woodland>

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

School Staff will ensure safe ingress and egress to and from the school for pupils, parents, and school employees. Safe ingress and egress will be maintained by periodic reviews of the procedures for ingress and egress. The school will ensure that all passageways to and from school buildings, corridors within school buildings and emergency exits remain clear of all obstruction to allow flow of pedestrian traffic. The school will also ensure that potential obstructions and hazards are removed from such areas. To assist school staff in conducting evaluations, the school may utilize consultants to conduct periodic inspections of the school.

Any problems associated with safe ingress and egress will be addressed immediately.

Component:

Formal Yolo County PBIS Training and Implementation of Positive Behavioral Interventions and Supports (PBIS)

Element:

To support the social, emotional and academic needs of all students.

Opportunity for Improvement:

Whitehead Elementary School has a team of faculty and staff that is participating in formalized PBIS training offered by the Yolo County Office of Education. The goal of this training is to educate the participants in MTSS strategies and to support the creation and implementation of a formal structured PBIS program for our school. This program will address the holistic needs of every student at our school in targeted ways. Tier 1 (universal) strategies apply to all students. Tier 2 and 3 strategies apply to students' needs that might be greater in scope or variety. We currently have a Wellness Team that meets weekly to address the students referred for Tier 2 and 3 services. This team consists of the Principal, Counselor, Behaviorist, Social Worker, Intervention Specialist, Psychologist IEP Chair, 504 Chair, and at times, others. Data from teacher Requests for Assistance, parent surveys, staff surveys, and Aeries Student Discipline, inform decisions to support the social, emotional and academic needs of all students. As the California School Dashboard data for Chronic Absenteeism demonstrates, having our students come to school more consistently must be addressed. staff will have more opportunity to implement PBIS.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

T. L. Whitehead Elementary School Student Conduct Code

SOAR!

I am...

SAFE when I am in school

ORGANIZED in class with my books and supplies

ATTENTIVE when adults and students speak to me

RESPONSIBLE student and accountable for my actions

Every student shares the responsibility for maintaining a safe and productive environment at school. Students are expected to inform a Whitehead staff member of any situation that would pose a danger to self or others. If a student chooses to be disruptive to the learning environment or violates school expectations, measures will be taken to inform parents and work with them to correct the student's behavior. Conferences may be required to develop a behavior contract or Behavior Support Plan (BSP).

Consequences for violation of school rules include but are not limited to:

- Time Out – Time out of class/removal from activity. The student on Time Out may not disrupt the environment to which he/she is assigned. Disruption will result in further consequences.
- Loss of Privileges
- Restorative Justice
- Contracts (CICO - Check In Check out) - From time to time, contracts are established to focus on behavioral changes which will support the student in reaching his/her educational goals. Contracts are written for individual students and include personal goals, positive praise and of redirection.
- Suspension and/or Expulsion

T. L. Whitehead Elementary School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. There are five functions of the SEMS: Management, Planning/Intelligence, Operations, Logistics, and Finance/Administration. The roles used to carry out these functions are listed below.

Finance/Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Incident Commander

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders, as well as arranging for transportation needs.

Operations

The Operations Chief manages and directs emergency response activities on campus. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students. The Operations Chief allows for the Incident Commander to carry out their responsibilities.

Planning/Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Public Information Officer

The role of the Public Information Officer is to serve as the primary contact for anyone who wants information about the incident, including the media, public and parents. The Public Information Officer develops, reviews and coordinates all incident related information and public and agency briefings and releases, as well as communications to staff and students.

Safety Officer

The role of the Safety Officer is to monitor safety conditions and develop measures for assuring the safety of students and staff. The Safety Officer also reports unsafe acts or conditions to the Incident Commander before taking action unless immediate action is necessary to preserve life or property.

Scribe

The Liaison Officer is the primary contact for supporting agencies (police, fire, Red Cross, etc.) assisting at an incident. There is no need for a Liaison Officer if other agencies are not involved. The Incident Commander may decide to act as the Liaison Officer instead of appointing another staff member to handle these duties.

Emergency Response Guidelines

Standard Response Guidelines:

4 ACTIONS

Each protocol has specific staff and student actions that are unique to the action.

In the event a student or staff identifies the initial threat, calling 911 and administration is essential.

LOCKOUT - "GET INSIDE. LOCK OUTSIDE DOORS"

Students are trained to:

- Return to inside of building
- Do business as usual

Teachers are trained to:

- Recover students and staff from outside building
- Increased situational awareness
- Take roll, account for students
- Do business as usual

LOCKDOWN - "LOCKS, LIGHTS, OUT OF SIGHT"

Students are trained to:

- Move away from field of view
- Maintain silence

Teachers are trained to:

- Lock classroom door
- Lights out
- Move away from sight
- Maintain silence
- Do not open the door
- Take roll, account for students

EVACUATE - "TO A LOCATION"

Students are trained to:

- Leave stuff behind
- Bring their phone
- Form a single file line

Teachers are trained to:

- Grab roll sheet if possible
- Lead students to Evacuation location
- Take roll, account for students

SHELTER - "FOR HAZARD USING A SAFETY STRATEGY"

Hazards might include:

- Tornado
- Hazmat
- Earthquake
- Tsunami Safety
- Strategies might include:
 - Evacuate to shelter area
 - Seal the room
 - Drop, cover and hold
 - Get to high ground

Strategies might include:

- Evacuate to shelter area
- Seal the room
- Drop, cover and hold
- Get to high ground

Students are trained in:

- Appropriate Hazards and Safety Strategies

Teachers are trained in:

- Appropriate Hazards and Safety Strategies
- Take roll, account for students
- Report injuries or problems, at the Evacuation Assembly, to first responders using the Red Card/ Green Card method.

1 DEMAND The protocol also carries an obligation. Kids are smart. An implicit part of the SRP is that authorities and teachers tell them what's going on. Certainly, tempered at the elementary school. But middle school and above needs accurate information for the greatest survivability, to minimize panic and to mitigate recovery.
