Science: All Students	75%	75%	50%
Science: Student Group	50%	50%	50%
Social Studies: All Students	75%	75%	75%
Social Studies: Student Group <small>(reporting error)</small>	*small cell size	75%	0%

Academic Achievement Calculation

- Each student receives a performance level index number between 1-5 based on their scale score.
- The performance level index scores for all students in a given content area are added together, divided by the total number of students and multiplied by 100 to determine the MPI.
- The MPI is measured against the status cutoffs for each content area and student group to determine the status designation.
- Points are then awarded to each status level.

Example Calculation:

Student 1 (6th) SS- 125, Basic, 3.5

Student 2 (7th) SS-100, Below Basic, 2.33

Student 3 (7th) SS-150, Basic, 3.75

Student 4 (8th) SS-255, Advanced, 5

Student 5 (EOC) SS-115, Proficient, 4.6

- $(3.5+2.33+3.75+5+4.6)/5 = 3.836 * 100 = \mathbf{383.6}$

• Status Designation

Floor	Approaching	On-Track	Target
100-299.9	300-380.9	381-399.9	400-500

• Status Point Allocation

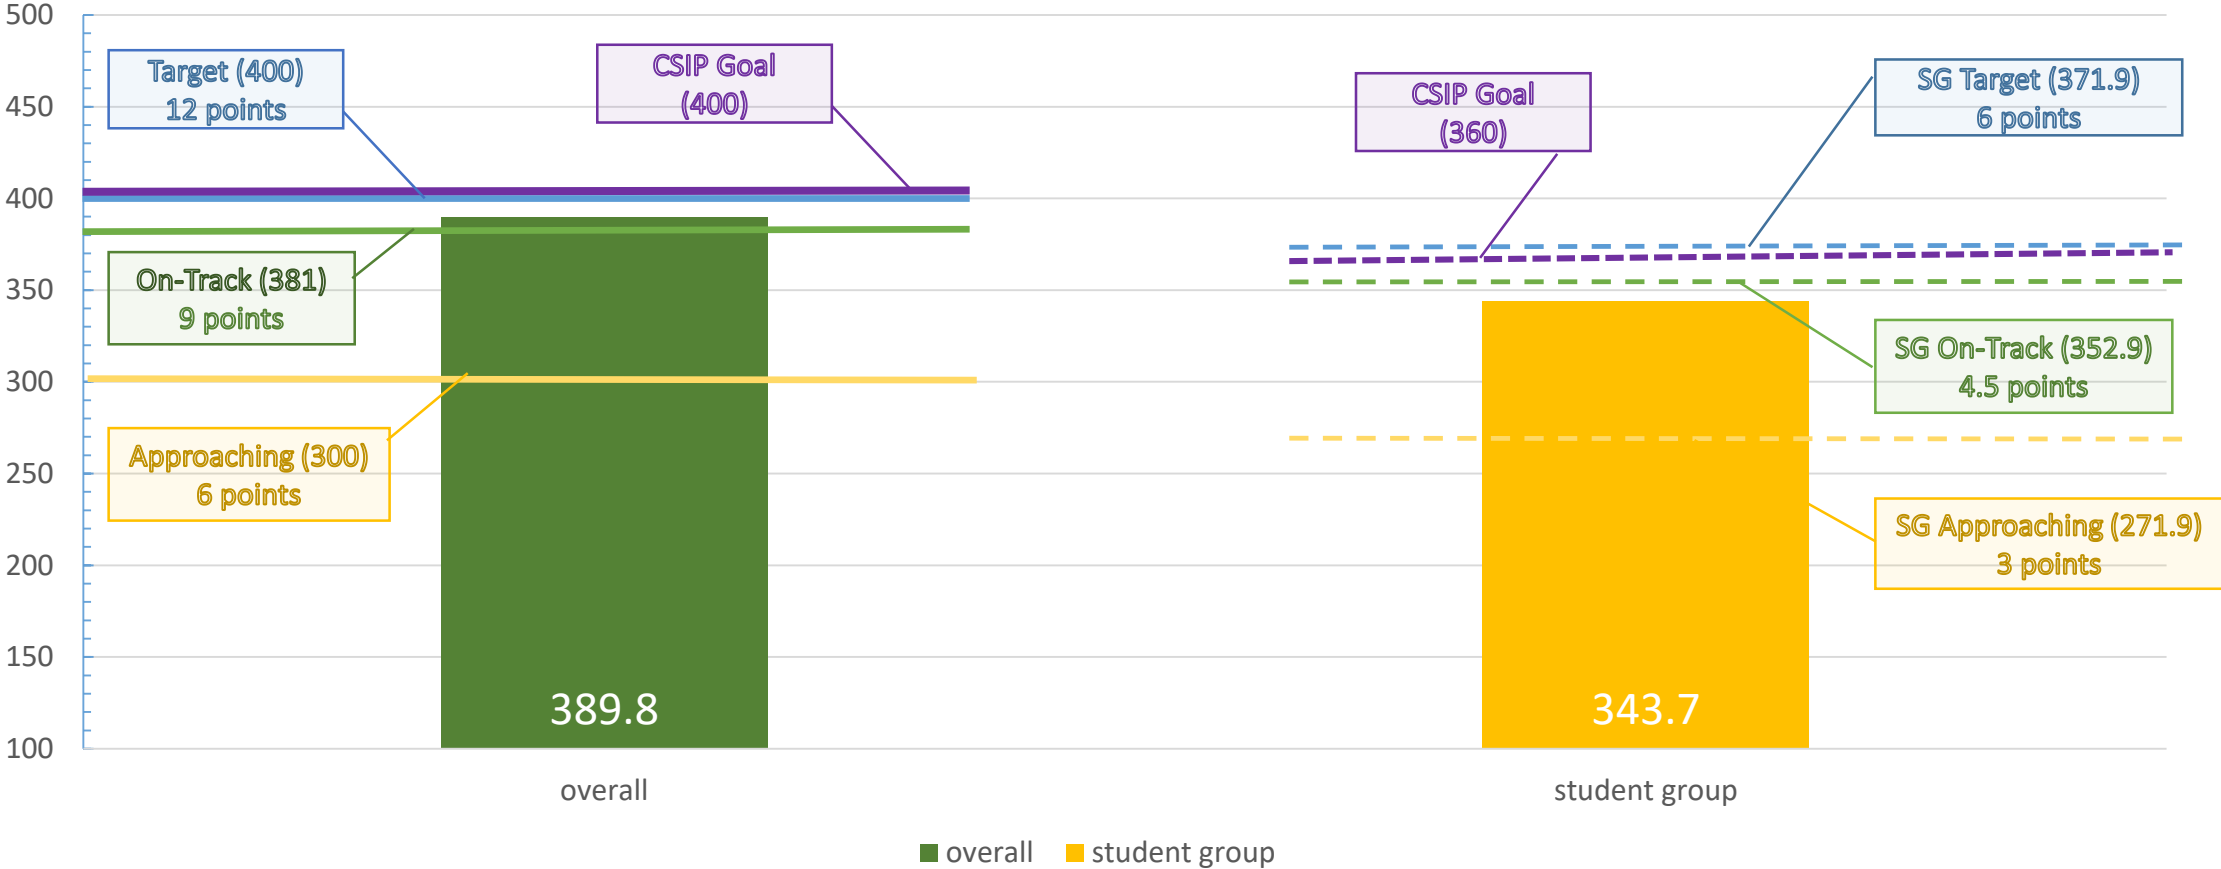

Floor	Approaching	On-Track	Target
0 (0%)	6 (50%)	9 (75%)	12 (100%)
