Proposal for:

**Dr. Tyrana B. Battle
Halifax County Schools
9525 Highway 301
South Halifax, NC 27839**

Hi Dr. Battle- here is a proposal for purchasing OPENGATE and handheld wand metal detectors.

Typical lead time for the OPENGATE is about 2 weeks. The demo video is at the end of this document.

108960 OPENGATE-LTE (4)	\$74,964.00
48-59-1802 Charger (4)	\$0.00
48-11-1812 Batteries (16)	\$0.00
109444BU Stabilizer baseplates (4 sets)	\$2,184.00
SWLIC-Y Yearly subscription NetID Anywhere (2)	\$5,040.00
23870 Test piece for the NILECJ-STD-0601.00 Level 2 Base (2)	\$508.00
Onsite CEIA Deployment & Training – 2 locations	\$5,000.00
PD240 Handheld Metal Detector Wand (4)	\$1,472.00
Total Purchase Price	\$89,168.00
Estimated Shipping	TBD
Total	\$89,168.00

Attached/below is information regarding CEIA'S OPENGATE Weapons Detection System specifically targeting mass casualty threats. The units are widely deployed for hospitals, concerts, colleges, schools churches, sporting events and more. If you have any questions when reviewing the information please let me know. 1 OPENGATE System has the throughput of 3-4 traditional walk through units.

CEIA's [OPENGATE™](#) is widely deployed for high capacity, high throughput mass casualty weapons detection.

Recent product updates include:

- Automatic traffic and alarm tracking.
- A variety of baseplate options for enhanced stability in windy environments or on uneven surfaces.
- Remote configuration and data downloading via NetID Anywhere: [CEIA Security Metal Detectors](#)
- Expanded power input via 110V wall power for applications where battery power is not preferred.

OPENGATE™'s features include:

- No divesting required.
- Battery powered with no crossbar or wires.
- Lightweight for portability; set up in literally 30 seconds.
- Fully Weatherproof.
- Syncs automatically via CEIA's proprietary wireless technology.
- Alarm notification to phones and tablets.
- Compliant with federal standards for handgun detection.

Below are available videos:

- OPENGATE™ Demo Video I (Personal Items, Purse, Compact Handgun): <https://youtu.be/ZnVP14hnl50>

NetID Anywhere Global Overview:

This is a cloud based independent networking system for OPENGATE, called NetID Anywhere, that would give you a lot more functionality and data than our app.

Here are some quick benefits of having NetID Anywhere (see attached overview as well):

- Easily get statistics/alarm counts
- Allows us to troubleshoot issues remotely
 - Helps eliminate onsite service costs
 - Reduces downtime
- Adjust settings on the fly for all of your units
- Alerts you if anyone makes a change to any settings
 - Also allows you to lock down settings
- Generate automatic reports (daily, weekly, monthly, etc)

Thanks!
