

PARTNERING WITH THE VIEWSONIC EDUCATION TEAM

We offer classroom solutions built for districts, by districts

WHY VIEWSONIC FOR YOUR DISTRICT?

At ViewSonic, we know that not all districts are alike. There is not one solution that fits all classrooms. ViewSonic has over 3 decades of experience as a Visual Solution company to be a true K-12 District partner offering a variety of displays, panels, monitors, projectors, digital signage solutions, classroom software, Device Management solutions, and more.

Our myViewBoard education software and Device Manager portal tie all the pieces together to make the life of the district easier - from the Tech department, to the administrative office, to the teachers, to the students.

Our own developed myViewBoard software has been built by ViewSonic over years of working with feedback from districts such as yours, and we will continue to adapt with the ever changing world of K-12 education.

ViewSonic is the only company to offer the variety of classroom display technologies that we have, while developing our own classroom software suite and Device Management capabilities. We will help you find a solution right for YOUR district, supported by ONE vendor, to support YOUR classroom needs.

INTERACTIVE PANELS

PROJECTORS

MONITORS

PODIUM SOLUTIONS

PROFESSIONAL DEVELOPMENT

DIGITAL SIGNAGE

COMMERCIAL DISPLAYS

TOP RATED SERVICE AND SUPPORT

DEVICE MANAGEMENT

EDUCATION SOFTWARE SUITE

PROSUMER DISPLAYS

ESPORTS

..AND MORE FOR YOUR SCHOOLS, AUDITORIUMS, AND CLASSROOMS

WE ARE NOT JUST A PIECE OF GLASS ON THE WALL, NOT A PROJECTOR ON A CEILING, NOT ANOTHER SOFTWARE TO LEARN, AND NOT ANOTHER HEADACHE TO MANAGE.

CHOOSE A TRUE COMPLETE SOLUTION PARTNER.

30+ years as a company - We will be here to support you for the long-run.

Professional Development Team - Our ViewSonic badged trainers are all former or current educators here to speak the language to your current and future educators.

myViewBoard software suite developed in-house - perpetual updates, one company to contact whether hardware or software related requests. We are able to adapt to what is next alongside your district.

US-based ViewSonic Warehouses - get your products when you need them, and no down-time for warranty replacements

US-based Support team and Top rated service support - pick up the phone, send an email, or go to our support portal for any needs at any time to contact your dedicated support team.

Microsoft and Google integration - with entity account management and single-sign on, let us sync to your ecosystem, don't adapt to ours.

Device Management built for Education - Like our myViewBoard lesson and collaboration software, we built our Device Management portal with you in mind. **This is not a 3rd-party software.** Again, one support path to make your life easier.

Secure - to be able to have millions of education myViewBoard users across the globe, we have to have our security in line. Ask us for further info at any time.
