

2026–27 Proposed Budget Actions

Key Priorities Driving Proposed Adjustments

- Decisions are guided by the goal of maintaining strong student experiences while ensuring long-term financial stability.
- Budget adjustments are intentionally focused away from the classroom whenever possible, prioritizing the protection of direct student instruction and core learning experiences.
- Proposed staffing reductions will occur through attrition, including retirements, voluntary resignations, and performance-based non-renewals.
 - There will be no reduction in force (RIFs).
 - There will be involuntary transfers.
- Some reductions in teaching positions achieved through attrition reflect declining or shifting enrollment patterns, allowing staffing levels to be aligned with current student numbers and minimal impact on class sizes.

Total budget savings as presented in this document: **\$7.5 million**

- Administration & District Office **\$2 Million**
- Operations & District Personnel **\$1.7 Million**
- Non-Personnel Savings **\$1.6 Million**
- Classroom Staffing **\$2.2 Million**
