### **DESCRIPTION OF SERVICES**

#### Beast Academy Online

Each one of your students will receive access to the entire Beast Academy curriculum, and all of the content contained therein (e.g., which spans five grade levels, with over 1,000 lessons, 20,000 problems, 1,000 instructional videos, and digital access to all 20 Beast Academy Guide Books).

You'll also receive one complimentary teacher seat for every five students you enroll (and, they'll have access to our robust Admin Panel, which allows them to track the progress of their students and even provide custom learning trajectories for them through the program).

All of our seats are fully transferable, so if one or more of your students no longer needs access at any point, you can simply reassign their seat to any new student of your choosing (and at any grade level), and that new student will get a clean slate with BA Online (n.b., the previous student's progress wouldn't be lost either; when removing access for a student, think of it as just "pausing" their account). In other words, one student does not need to remain in any one seat for the duration of the license length. And data/progress is always tied to the student, not the seat itself.

Access to Beast Academy Online, an elementary school learning system consisting of the following:

- Instructional reading material for students
- Instructional videos for students
- Sets of mathematical problems and puzzles for student training
- Extensive reporting for students and teachers

This General Offer shall extend only to privacy protections, and Provider's signature shall not necessarily bind Provider to other terms, such as price, term, or schedule of services, or to any other provision not addressed in this DPA. The Provider and the Subscribing LEA may also agree to change the data provided by Subscribing LEA to the Provider to suit the unique needs of the Subscribing LEA. The Provider may withdraw the General Offer in the event of: (1) a material change in the applicable privacy statuses; (2) a material change in the services and products listed in the originating Service Agreement; or three (3) years after the date of Provider's signature to this Form. Subscribing LEAs should send the signed **Exhibit "E"** to Provider at the following email address: schools@inflectionpointlearning.com

**DATA SECURITY REQUIREMENTS**

**Adequate Cybersecurity Frameworks**

**2/24/2020**

The Education Security and Privacy Exchange (“Edspex”) works in partnership with the Student Data Privacy Consortium and industry leaders to maintain a list of known and credible cybersecurity frameworks which can protect digital learning ecosystems chosen based on a set of guiding cybersecurity principles\* (“Cybersecurity Frameworks”) that may be utilized by Provider .

Cybersecurity Frameworks

	<b>MAINTAINING ORGANIZATION/GROUP</b>	<b>FRAMEWORK(S)</b>
	National Institute of Standards and Technology (NIST)	NIST Cybersecurity Framework Version 1.1
	National Institute of Standards and Technology (NIST)	NIST SP 800-53, Cybersecurity Framework for Improving Critical Infrastructure Cybersecurity (CSF), Special Publication 800-171
	International Standards Organization (ISO)	Information technology — Security techniques — Information security management systems (ISO 27000 series)
	Secure Controls Framework Council, LLC	Security Controls Framework (SCF)
	Center for Internet Security (CIS)	CIS Critical Security Controls (CSC, CIS Top 20)

**EXHIBIT “G”****Supplemental SDPC State Terms for Iowa**Version 1.0

[The State Supplement is an ***optional*** set of terms that will be generated on an as-needed basis in collaboration between the national SDPC legal working group and the State Consortia. The scope of these State Supplements will be to address any state specific data privacy statutes and their requirements to the extent that they require terms in addition to or different from the National Standard Clauses. The State Supplements will be written in a manner such that they will not be edited/updated by individual parties and will be posted on the SDPC website to provide the authoritative version of the terms. Any changes by LEAs or Providers will be made in amendment form in an Exhibit (**Exhibit “H”** in this proposed structure).]

**Additional Terms or Modifications**

Version 1.0

LEA and Provider agree to the following additional terms and modifications:

See "Modifications" page for accepted modifications

## Modifications:

### ARTICLE II: DATA OWNERSHIP AND AUTHORIZED ACCESS

#### Section 2- Parent Access

**Requested Amendment:** In reference to the **Parent Access** section, we request to clarify that while our platform does not currently offer a self-service portal for parents or students to directly review or correct data, we fully support these rights via **manual data exports**.

**Justification:**

- **Direct Access:** The current functionality of the services does not include a parent/student-facing dashboard for real-time data management.
- **Fulfillment Process:** To ensure the LEA remains compliant with access requests, we will provide a comprehensive data export upon request. This allows the LEA to review, correct, or transfer student-generated content as needed to fulfill their obligations.

**New Language:**

“To the extent required by law the LEA shall establish reasonable procedures by which a parent, legal guardian, or eligible student may review Education Records and/or Student Data correct erroneous information, and procedures for the transfer of an export of student-generated content. The LEA shall be responsible for coordinating the review and any necessary corrections with the parent or student using the provided export.”

#### Section 3- Separate Account

**Amendment:removal of Section 3 (Separate Account)** in its entirety.

**Justification:**

- **System Architecture:** Our platform does not currently support the creation or maintenance of individual student-owned accounts outside of the LEA’s organizational structure.
- **Alternative Fulfillment:** To satisfy the intent of this requirement (portability of student work), we provide a **comprehensive data export** of Student-Generated Content to the LEA. This allows the LEA to deliver the content to the student or parent in a portable format that can be used or uploaded elsewhere.

### **New Language for Exhibit “H”:**

"Provider does not support the transfer of Student-Generated Content to a separate, individual account. In lieu of this, the Provider shall, at the request of the LEA, provide a data export of said content to the LEA for delivery to the student or legal guardian."

## **ARTICLE V: DATA PROVISIONS**

### **3. Data Security & Exhibit F**

**Amendment:** In reference to the Data Security section and Exhibit “F”, we request an exception to the requirement of selecting a pre-defined Cybersecurity Framework at this time. Justification & Current Status:

- Path to Implementation: We are currently in the process of formalizing our security program and are actively working toward NIST implementation.
- Current Controls: While we utilize administrative, physical, and technical safeguards to protect Student Data, some internal processes are still in the documentation phase, which prevents us from checking a specific "nationally recognized" box today.
- Commitment to Security: We remain fully committed to the security standards outlined in the DPA and are happy to provide further details on our specific internal controls or roadmaps via Exhibit “H”.

### **Language for Exhibit “H”:**

"Provider is currently aligning its security program with the NIST Cybersecurity Framework. While full alignment is in progress, Provider maintains internal safeguards to protect LEA data, including:

- Encryption of data in transit (collected, copied and moved) and at rest (stored on the physical servers).
- Security measures to limit access to systems housing data, including authentication (password protection and MFA), and firewalls (hardware and software)
- Limiting internal access to confidential information to those individuals who have a legitimate educational interest in such records (via administrative processes and Application and System authentication mechanisms)
- Providing training on federal and state law governing confidential information to any officers, employees, or assignees prior to them having access to confidential information, and on regular intervals thereafter.
