

Lumi x Hickman Mills C-1 Public Schools Partnership Proposal

Proposal Overview

Lumi Story AI: Preparing Students to Write in the Age of AI

Hickman Mills C-1 Public Schools (HMC-1) is a diverse and community-driven district, serving approximately **5,000 students across 13 schools**. HMC-1 is committed to fostering equitable opportunities, strengthening academic achievement, and supporting the whole child to ensure every student is prepared for success in college, career, and life.

Lumi Story AI sees this partnership as a powerful opportunity to support and accelerate Hickman Mills' priorities by bringing creative expression, literacy acceleration, multilingual support, and social-emotional growth together under one unified, transformative vision. By equipping students with AI-powered tools to tell their stories, we amplify student voice, build confidence, deepen engagement, and unlock new pathways for learning across every grade level.

Why This Matters Now

AI Literacy Is Moving From Experiment to Infrastructure

- Literacy challenges are accelerating. **69%** of U.S. 4th graders are below reading proficiency—the lowest level in decades.
- Classrooms are more complex than ever. Teachers are navigating an average of **3–5** grade levels of reading ability within a single classroom.
- AI use is already widespread. A majority of students are currently using AI tools for schoolwork, often without clear guidance or visibility.

What This Looks Like in Practice

- Students produce up to **15x** more writing through structured AI-supported workflows
 - Teachers maintain full visibility and control over how AI is used
 - Multilingual and diverse learners engage through multimodal, accessible storytelling
 - Districts move from AI uncertainty to clear, aligned implementation
-

Lumi Partnerships

Partnership	Student Licenses	School Site PD	Total Investment
1-Year 2,800 Students	\$70,000 \$25 x 2,800	\$20,000 \$5,000 x 4	\$90,000 / Year
3-Year 10% Discounts	\$61,600 \$22 x 2,800	\$18,000 \$4,500 x 4	\$78,500 / Year Savings: \$34,500
5-Year 20% Discounts	\$56,000 \$20 x 2,800	\$16,000 \$4,000 x 4	\$72,000 / Year Savings: \$90,000

Partnership with Lumi

A structured, supported, and scalable approach to AI-powered literacy.

- **Districtwide Access, One Unified System:** A single platform for all students, teachers, and administrators—ensuring consistent, aligned AI use across the district.
- **A Dedicated District Success Team:** We partner directly with district leaders and school sites to monitor progress, address challenges quickly, and drive results.
- **Structured, Supported Implementation:** A clear, phased rollout—from leadership alignment to classroom execution—with hands-on support at every step.
- **Ongoing Professional Learning, Built for Classrooms:** Sustained, classroom-focused development that builds teacher confidence—without adding to workload.
- **Built Into Your Existing Curriculum:** Enhances what teachers already do through structured writing and AI coaching—no new or competing initiatives.
- **Clear, Visible, and Responsible AI Use:** Full visibility into student work and AI interactions, with built-in guardrails that support integrity and independence.
- **Access for Every Learner:** Multimodal and multilingual supports ensure all students can fully participate and succeed in every classroom.

- **Student Work Beyond the Classroom:** Showcases and publishing opportunities turn student writing into authentic, real-world work to highlight their unique voices.
-

District Success & Implementation

Hands-on partnership to ensure a smooth rollout and measurable success.

- **Aligned From the Start:** A clear kickoff and planning process aligns goals, timeline, and success metrics before implementation begins.
 - **Seamless Technical Setup:** We handle rostering, platform setup, and secure single sign-on (SSO) integration (e.g., Clever or ClassLink).
 - **Curriculum-Aligned Project Design:** We partner with district and school leaders to align Lumi to existing curriculum and co-develop high-impact writing projects.
 - **Guided Onboarding for Leaders and Teachers:** Role-specific onboarding supports confident platform use and classroom integration from rollout to expanded use.
 - **Ongoing Support and Resources:** Toolkits, office hours, and direct access to our team ensure educators have what they need and stay on track throughout the year.
 - **Flexible Professional Learning and Showcase Support:** On-demand PL modules and district showcases build capacity, celebrate student work, and sustain momentum.
-

Impact on Student Learning

Lumi students produce 15x more writing—driving deeper thinking and improved outcomes.

- **Increased Student Engagement:** Students are drawn into the writing process—leading to higher participation and sustained effort in the classroom.
 - **Stronger Writing and Communication Skills:** Structured support and real-time feedback improve clarity, organization, and voice across all subject areas.
 - **More Time for Meaningful Instruction:** AI-supported workflows reduce repetitive tasks—allowing teachers to focus on direct student support.
 - **Consistent, Equitable Access to Support:** Immediate, individualized guidance helps close gaps and support diverse learners with multimodal and multilingual supports..
 - **Preparation for an AI-Integrated World:** Students develop the skills to use AI responsibly and effectively to prepare for future opportunities.
-

The Opportunity Ahead

Districts are defining how AI will shape teaching and learning.

Those who move early will shape student outcomes for the next decade.
