2Teach will continue to provide training in inclusive practices; specifically co-teaching, to middle school English, math and special education teachers to continue co-teaching implementation in 7th and 8th grade classrooms. High school special education teachers have also been and continue to access this training as well. Furthermore, direct coaching will be provided to co-teaching pairs to support implementation of effective co-teaching practices.		SRCS began working with 2Teach in the 2018 - 2019 school year for training and facilitating co-teaching. Multiple vendors were researched and considered. This trainer is highly qualified and was well-received by teachers and administrators.			Success will be defined as positive social outcomes, increased student engagement, improved social skills and self-concept through the reduction of pull-out situations and improved academic performance.

Bluebeam Revu Core is a professional-grade markups, measurements, collaboration, and project management software. Revu is Bluebeam's foundational project efficiency and collaboration solution for desktop that allows users to create, edit, mark up, and organize PDFs with project partners. Revu also includes Studio, where users can securely collaborate in real time with team members anywhere in the world. Studio is built into Bluebeam Revu, and the Core plan includes full Studio capabilities. Studio Projects gives users a single centralized location to store documents—even entire building projects—in the cloud. And Studio Sessions lets project teams review, markup and update the same files at the same time. Bluebeam Studio is the tool used by the Division of the State Architect for school construction project plan review and collaboration.		Allows for our staff in the Facilities department to better collaborate, communicate and project manage with our construction and architectural partners.			A survey will take place at the end of the year to gauge staff satisfaction with the program.

FinalSite is a our current and new Website platform service. FinalSite will provide a two hour School Webmaster Training geared to all staff that will be updating or maintaining websites with new information.		Our website enhance SRCS engagement with parents, families, and the community at large. SRCS district website and individual school websites are vital communication tools for the district and schools. They provide timely information about each school, the district, and SRCS educational programs. SRCS websites, along with other SRCS communication systems, are essential in times of emergency to keep the students, families, and staff updated.			It is expected that the Santa Rosa City School staff receive high-quality training. All designated staff members should be knowledgeable in maintaining the websites with up-to-date information.
