

CITY OF SANTA ROSA DRAFT GENERAL PLAN
Santa Rosa City Schools Board of Education
October 25, 2023

Communities are planned by thinking about where homes, buildings, stores, parks, schools, roads, and other features should be located. But planning also involves thinking about what people need and how they can stay safe, have access to education and jobs, and have a voice in decisions that affect their lives.

The General Plan Update process, known as **Santa Rosa Forward**, provides an important opportunity to **revisit** and **rethink** community planning policies and programs.

The goal is to think about how we want to improve Santa Rosa now and into the future!

General Plan Process

We are currently in the *Draft General Plan* phase of the project.

All documents are available at www.SantaRosaForward.com

Project Timeline

Santa Rosa

2050 Vision Statement

Santa Rosa is a diverse, equitable, and sustainable community built on civic engagement that empowers everyone to provide and support equal and affordable opportunities to obtain good housing, education and jobs; to enjoy vibrant cultural events and arts; and to live healthy lives in resilient neighborhoods that adapt to social and environmental change.

Draft Santa Rosa General Plan 2050

General Plan Contents

Draft Santa Rosa General Plan 2050 consolidates the State mandated General Plan elements into five chapters* that address both required and optional General Plan topics. Each chapter includes goals, policies, and actions that work together to achieve the community's vision for the future.

*The City's Housing Element covering the planning period through 2031 was adopted in February 2023. Draft General Plan 2050 does not propose any changes to the Housing Element.

2 LAND USE AND ECONOMIC DEVELOPMENT

OVERVIEW

How land is used in Santa Rosa can make a big difference in how people feel about and interact in local neighborhoods and in how the local economy operates. General Plan 2050 seeks to reinforce local pride, increase local investment, and bolster the vitality of the city as a whole.

Land Use and Economic Development in the Plan: The Land Use and Economic Development chapter of the General Plan supports thoughtful land use planning and economic development strategies to enhance and build on

neighborhood assets, address current challenges, increase economic and environmental vitality, increase personal opportunity, and improve quality of life for everyone in Santa Rosa.

Land Use Classifications: The citywide land use classifications represent adopted City policy intended to achieve the community's vision. They are meant to be broad enough to give the city flexibility in implementation, and clear enough to provide sufficient direction to carry out the General Plan.

VISUALIZING THE CONCEPT

CHAPTER GOALS

Goal 2-1: Ensure that growth and change serve community needs, protect the environment, improve fiscal stability, and enhance quality of life for all members of the community.

Goal 2-2: Promote city-centered growth and investment with a neighborhood-focused approach to create complete and connected communities that provide for community members' daily needs within easy walking or biking distance.

Goal 2-3: Promote livability by creating a variety of housing types near transit to reduce greenhouse gas emissions.

Goal 2-4: Ensure that new growth and development are resilient to economic cycles and forces.

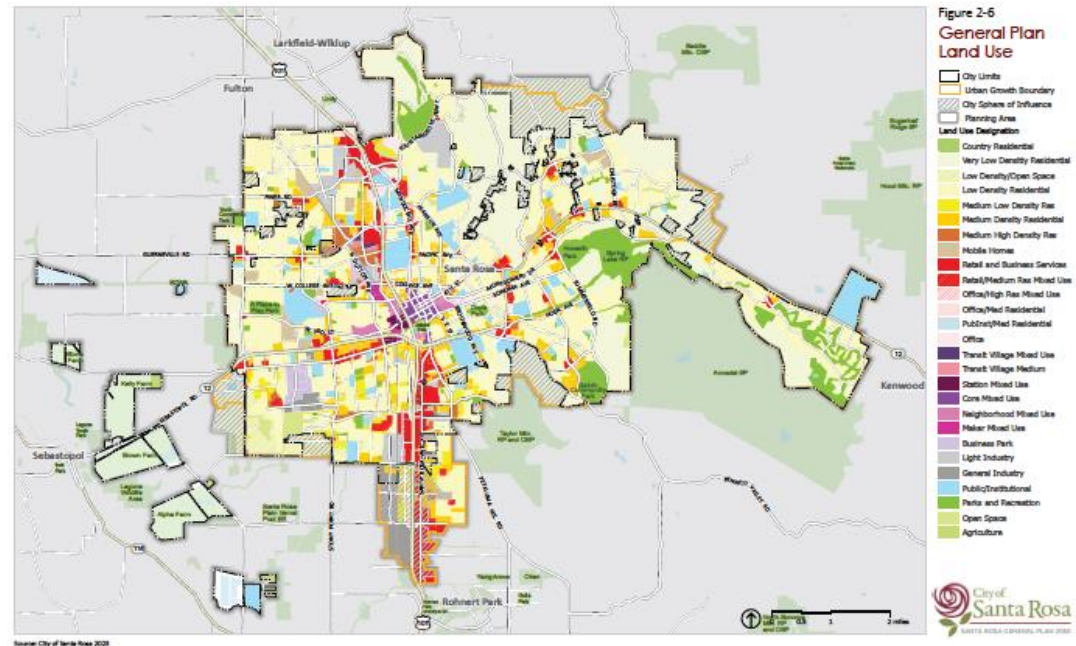

Goal 2-5: Foster sustained, inclusive growth that generates long-term, shared value in the community and creates economic opportunities for all residents.

Goal 2-6: Maintain vibrant, convenient, and attractive commercial centers.

NEW IDEAS

The following are some of the new ideas presented in this chapter:

- Require construction measures that make exposure to air pollution less severe for development within 500 ft of Highways 101 and 12 (Action 2-1.3).
- Support micro-entrepreneurialism, neighborhood-centered businesses and job creation, home-based businesses, mobile food and craft vendors, and community gathering events in all nonresidential zoning districts (Actions 2-4.6, 2-5.8, and 2-5.9).

3

CIRCULATION, OPEN SPACE, CONSERVATION, AND GREENHOUSE GAS REDUCTION

OVERVIEW

Responsible management of the built and natural environments now and in the future is essential to ensure the well-being of current and future generations.

Circulation: The General Plan works to further expand the city's transportation options and support the mobility needs of everyone in Santa Rosa, prioritizing modes like transit and bike that minimize greenhouse gas emissions.

Open Space and Conservation: Open space in and around Santa Rosa offers multiple community benefits, including visual enjoyment, watershed protection, recreation use, and hazard risk reduction. General Plan 2050 guides City efforts to conserve (preserve and protect) resources, including the city's open space areas and air quality.

Greenhouse Gas Reduction: This chapter provides goals, policies, and actions to reduce greenhouse gas (GHG) emissions in the transportation and energy sectors, which generate the highest shares of GHG emissions. Additional GHG reducing strategies are present in other chapters of the General Plan where topics such as land use and public services and facilities are addressed. The City's GHG Reduction Strategy, currently under development, will present all City GHG reduction measures in a comprehensive plan.

VISUALIZING THE CONCEPT

CHAPTER GOALS

Goal 3-1: Provide an integrated land use and transportation system with safe and efficient movement of people and goods for all modes of travel that prioritizes reduction of transportation-related GHG emissions.

Goal 3-2: Provide a safe and accessible active and public transportation network that reduces dependence on single occupancy vehicles, prioritizing Equity Priority Areas and Areas of Change.

Goal 3-3: Ensure that traffic-related impacts of proposed land uses are evaluated and mitigated.

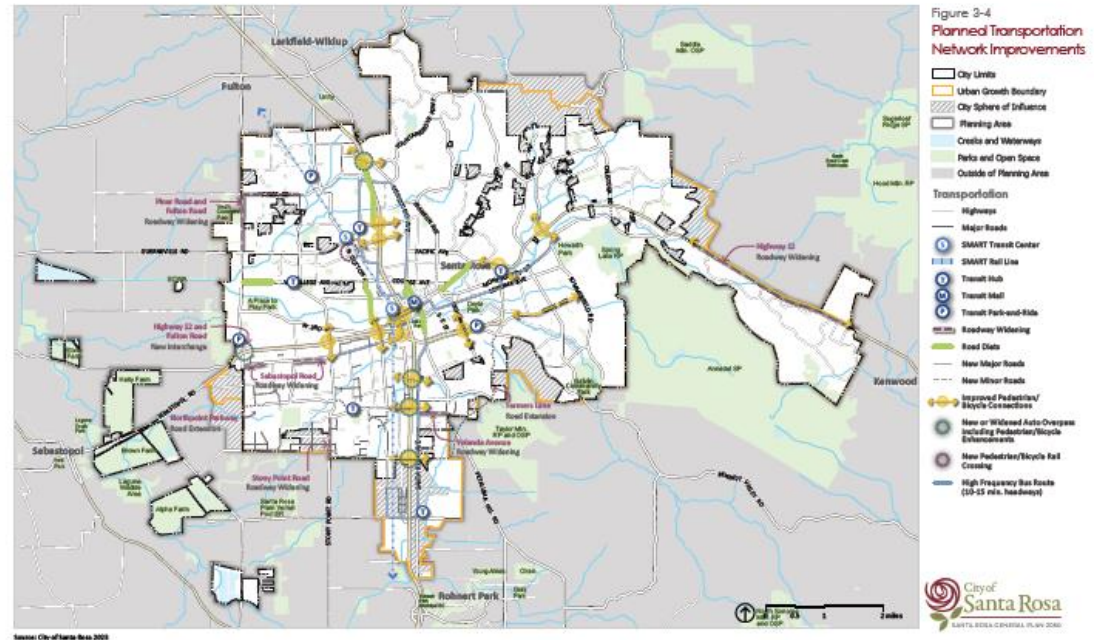

Goal 3-4: Protect, expand, maintain, and restore natural resources, open space, and agricultural land.

Goal 3-5: Achieve net carbon neutrality by 2030.

NEW IDEAS

The following are some of the new ideas presented in this chapter:

- » Prioritize transportation investments that support walking, biking, transit, carpools, and rideshares, especially in Equity Priority Areas (Actions 3-17 and 3-114), or areas that have been underinvested.
- » Continue to reduce parking requirements (Action 3-1.9).
- » Prohibit new drive-throughs (retail and services) and provide incentives to discontinue existing ones (Action 3-4.34).

4 URBAN DESIGN, HISTORIC PRESERVATION, AND ARTS AND CULTURE

OVERVIEW

Attractive design of buildings and outdoor spaces, cultural and historic preservation, and art in public spaces support a high quality of life and esteem for Santa Rosa residents and businesses.

Urban Design: The City's urban design standards encourage development to highlight the natural and historical features of established areas, create distinct architectural identities in emerging areas, and protect views of the natural, unbuilt areas surrounding Santa Rosa.

Historic Resources: Santa Rosa's historic resources include sites, structures, districts, and landmarks, marked by a rich architectural heritage, spanning many periods.

Cultural Resources: Native American habitation in the Santa Rosa region began about 7,000 years ago. The city contains almost 200 recorded Native American resources and there is a high potential for finding more Native American sites in Santa Rosa.

Arts: Arts have the power to connect people, promote cultural inclusion and diversity, create civic pride and a sense of community, stimulate the local economy, and inspire the creative spirit.

VISUALIZING THE CONCEPT

Attractive Gateways

Hillside and Creek Preservation

Native American Heritage

Historic Preservation

Public Art

Placemaking

CHAPTER GOALS

Goal 4-1: Preserve and enhance Santa Rosa's community character through attractive urban and environmental design and intentional development.

Goal 4-2: Protect the historic and cultural resources of Santa Rosa and enrich the sense of place and understanding of the city's history and prehistory.

Goal 4-3: Support an empowered, thriving, and inclusive Santa Rosa community connected through the power of art.

NEW IDEAS

The following are some of the new ideas presented in this chapter:

- » Provide planting strips with large canopy trees between the road and sidewalk along commercial streets to support safety and placemaking (Action 4-1.5).
- » Remove obstacles for owners of historic properties to support preservation (Action 4-2.11).

5

SAFETY, CLIMATE RESILIENCE, NOISE, AND PUBLIC SERVICES AND FACILITIES

OVERVIEW

The beautiful environment that attracts people to Santa Rosa also creates potential risks from hazards that can harm people and property and cause economic and social dislocation.

Geologic and Seismicity: The relatively flat valley floor adjacent to highland areas in and around Santa Rosa signifies the presence of active earthquake faults.

Flooding and Dam Failure: Santa Rosa is in the Russian River watershed and has experienced flooding in the past. Rain events can overwhelm local drainages, especially the low-lying areas in the southwest part of the city, where critical sewer treatment facilities are located.

Emergency Preparedness: The City has taken proactive measures to prepare the community for an emergency event and is poised to respond quickly and efficiently in a disaster event.

Public Services and Facilities: The General Plan supports the City's ability to provide superior public services and facilities for the community, including ensuring sufficient water supply, facilitating cooperation with local and regional emergency responders, and expanding efforts to focus policing on community-based solutions.

Climate Resilience: While General Plan 2050 works to reduce GHG emissions and reverse the effects of climate change, effective hazard mitigation must simultaneously support the community's ability to adapt to and recover from changing climate conditions.

Wildland and Urban Fires: Santa Rosa and Sonoma County are prone to wildfire that can be intense and uncontrollable—the area is especially susceptible in the wildland urban interface. The General Plan and other plans and City activities reduce the threat of fires and protect the community.

VISUALIZING THE CONCEPT

CHAPTER GOALS

Goal 5-1: Minimize community exposure to seismic and geologic hazards.

Goal 5-2: Effectively manage the potential effects of flooding and dam failure.

Goal 5-3: Increase community resilience to future wildfire threats.

Goal 5-4: Protect all community members and businesses from hazardous materials exposures and releases.

Goal 5-5: Santa Rosa is prepared for future emergencies.

Goal 5-6: Santa Rosa is a resilient city able to adapt to, recover from, and thrive under changing climate conditions.

Goal 5-7: Protect the community from adverse noise impacts that can decrease quality of life.

Goal 5-8: Provide adequate and high-quality city services for water, wastewater, recycled water, stormwater, and solid waste.

Goal 5-9: Help provide superior and lifelong educational opportunities for all community members.

Goal 5-10: Provide efficient and effective police and fire services for all members of the community.

NEW IDEAS

The following are some of the new ideas presented in this chapter:

- » Create opportunities to proactively relocate existing development from high fire risk areas (Action 5-3.11).
- » Explore options to prohibit increased density of residential and non-residential uses in fire-prone areas (Action 5-3.12).

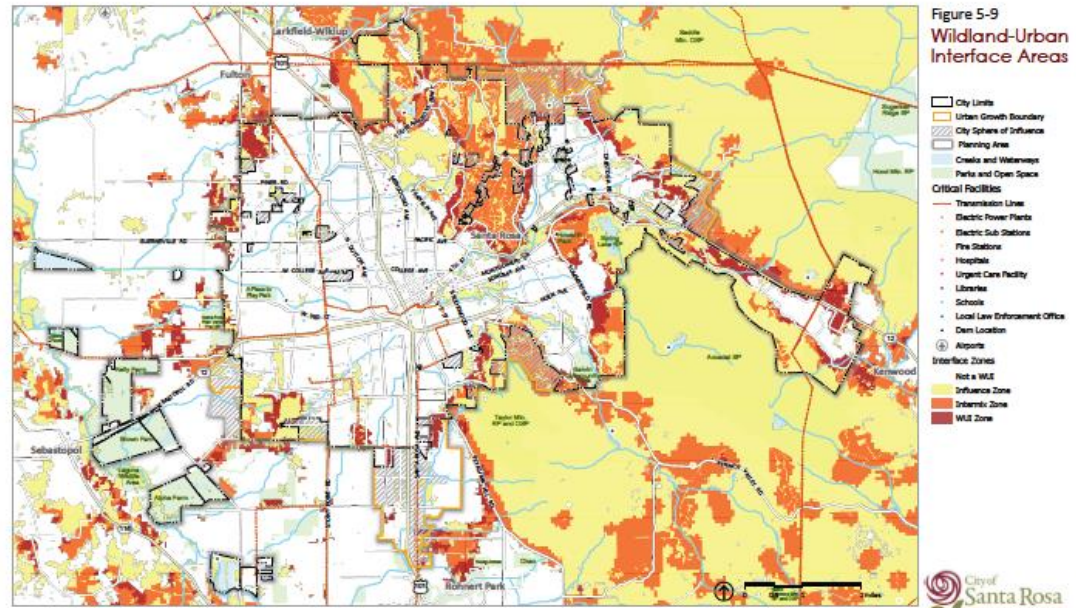

Figure 5-9 Wildland-Urban Interface Areas

Education and Learning

Schools

The Planning Area is served by 11 public school districts, Santa Rosa Junior College, and 27 private schools ranging from nursery/preschool to college. The public school districts cover the entire Planning Area, and private schools are sprinkled throughout the community offering alternative religious, special-needs, and other specialized programs. Santa Rosa Junior College also offers continuing education programs. The City is not responsible for administration of any schools but works cooperatively with each district and school to support student success.

Educated

Life-long education, enrichment, and supportive services and resources engage and empower young people, strengthen families (of any family structure), connect and activate seniors, and foster the success and well-being of everyone.

Goal 5-9: Help provide superior and lifelong educational opportunities for all community members

Policy 5-9.1 Provide high-quality educational opportunities for all members of the community, especially, children, youth, and seniors

Action 5-9.1: Work with schools to locate sites and facilities to serve all neighborhoods and the educational needs of all sectors of the population, including:

- Safe pedestrian and bicycle access and traffic-calming measures in the vicinity.
- Attractive design that contributes to neighborhood identity and pride.
- Partner with the Police Department to create a safe learning environment.

6 HEALTH, EQUITY, AND ENVIRONMENTAL JUSTICE

OVERVIEW

Like many communities, Santa Rosa faces long-standing inequities and health disparities between certain areas and groups in the city. The General Plan identifies these issues and presents meaningful solutions.

Health for All Residents: Santa Rosa is committed to maintaining and enhancing the health and quality of life for the community by integrating "Health in All Policies," a practice that incorporates community and individual well-being into decision-making across all City government sectors and policy areas.

Food Access and Urban Agriculture: Access to fresh foods, whole grains, and other unprocessed or minimally processed foods is essential to good health. The General Plan identifies Healthy Food Priority Areas, where residents may lack access to fresh foods, to target efforts to meet the nutritional needs of these communities.

Violence Prevention and Equitable Policing: General Plan 2050 includes strategies to enhance safety and make residents of all ages, races, and ethnicities across Santa Rosa feel safe and welcome in the community.

Parks: Santa Rosa features a wonderful network of parks offering a variety of recreation opportunities. The City, however, continues to work toward an ambitious target of offering 6 acres of parkland for every 1,000 residents, while maintaining and enhancing the quality of existing parkland.

Youth, Family, and Seniors: The City aims to enhance opportunities for young people, families, and seniors to enjoy a high quality of life with age-appropriate services and the ability to age in place.

VISUALIZING THE CONCEPT

Fresh Food Access

Affordable Housing

Language Accessible Goods and Services

Clean Air

Economic Opportunity

Park Amenities

CHAPTER GOALS

Goal 6.1: Improve health and well-being for all community members by emphasizing community health in all City policies, programs, actions, and activities.

Goal 6.2: Advance health equity by understanding and addressing key social determinants of health.

Goal 6.3: Promote meaningful community engagement and empower residents through inclusive communication, outreach, and capacity-building to participate in City planning and decision making.

Goal 6.4: Maintain and enhance a culture of language access and justice in City communications and public participation in planning and decision-making processes.

Goal 6.5: Minimize risk of displacement and gentrification while ensuring housing is safe and sanitary for all residents.

Goal 6.6: Ensure that all households and individuals have convenient, daily access to affordable healthy food, including fresh produce.

Goal 6.7: Ensure community safety and foster neighborhood environments that are welcoming to all ages, cultures, races, and ethnicities.

Goal 6.8: Make parks the center for improving personal and community well-being.

Goal 6.9: Foster environments that support families and community members of all ages with high-quality, equitably accessible amenities, programs, and services.

NEW IDEAS

The following are some of the new ideas presented in this chapter:

- » Ensure that every decision made by the City of Santa Rosa promotes community health, sustainability, equity, and environmental justice (Actions 6-1.3, 6-1.4, 6-1.11, and 6-1.12).
- » Restrict tobacco and alcohol sales where there is already a high concentration of retailers and near sensitive populations, such as near schools and senior facilities (Action 6-214).
- » Require convenience stores, supermarkets, liquor stores, and neighborhood markets to carry fresh produce (Action 6-6.2).
- » Require extra review for new chain restaurants and at least 300 feet between fast-food chains (Actions 6-6.7 and 6-6.8).
- » Allow all forms of urban agriculture (including rooftop, indoor, and other gardens) by right citywide and allow on-site produce exchanges and sales (Action 6-6.13).

Health, Equity, and Environmental Justice

Health for All Residents

Goal 6-2: Advance health equity by understanding and addressing key social determinants of health.

Policy 6-2.3: Prevent, disincentivize, and reduce harmful addictive behaviors.

Action 6-2.14: Restrict tobacco and alcohol retailers near schools, youth-populated areas, and senior facilities, and in areas with a high density of existing tobacco retailers, particularly in Equity Priority Areas.

Action 6-2.15: Partner with local, regional, and State organizations to promote public awareness about the potential risks of opioid abuse, and the use of alcohol, tobacco, and other drugs that affect Santa Rosa community members.

Violence Prevention and Equitable Policing

Uncertainty or fear regarding personal and family safety is a significant negative health determinant. If people don't feel safe, they don't want to leave their home to congregate, exercise, or travel to appointments. Sometimes parents keep their children away from school because of their concern for the child's safety. Ensuring safety for the entire community is a major step toward achieving equity and promoting community health. Life-long education, enrichment, and supportive services and resources engage and empower young people, strengthen families (of any family structure), connect and activate seniors, and foster the success and well-being of everyone.
