2023/24 Unaudited Actuals Report

Presented September 11, 2024

Santa Rosa City Schools: Fiscal Overview

Santa Rosa City Schools operates through two distinct districts: the Santa Rosa Elementary District and the Santa Rosa High School District. Both districts share a unified administration, Board, and fiscal reporting system. The attached documents present the combined fiscal data for both districts.

Budget Estimation and Reporting:

- **June Estimates:** During budget development for the upcoming fiscal year, an estimate is prepared based on available information. These "estimated actuals" represent the District's best projection of how the current year will conclude, although not all programs have ended and all revenues and expenditures are not fully accounted for yet.
- **Unaudited Actuals:** The unaudited actuals for 2023/24 provide a snapshot of the District's actual financial activities and financial position as of June 30, 2024. These figures reflect the District's real financial outcomes for the year, subject to further verification through the annual audit process.
- **Annual Audit:** The unaudited actuals will be reviewed and finalized during the annual audit, with results expected to be presented in January.

Compliance with Education Code:

According to the Education Code, districts must close their books and adopt their financial reports by September 15 each year for the preceding fiscal year. This report is submitted to the Sonoma County Office of Education and the California Department of Education for review.

2023/24 Financial Components

- For K-8 ADA, the Mandated Cost Block Grant is \$37.81 per ADA and \$72.84 per ADA for 9-12
- Lottery revenue was \$177 per Ada for unrestricted purposes and \$72 per ADA for restricted. This reflects a reduction from \$204 and \$100 respectively in the prior year.
- Except as illustrated under Contributions to Restricted Programs, all federal and state restricted categorical programs are self-funded.
- Average Daily Attendance (ADA) is funded based on the higher number of current year, P2 from the prior year, or the three year average. The following chart breaks down the actual ADA for P2 and Annual reporting periods for the last two fiscal years:

	2022-23		2023-24

Restricted vs. Unrestricted Funds

The District’s funding is categorized into two types: restricted and unrestricted.

Restricted Funds: These funds have specific conditions on how they can be used. Restrictions may include:

- **Expenditure Limitations:** Funds may be earmarked for particular purposes, such as equipment or staffing, and cannot be used for other types of expenses.
- **Additional Requirements:** There may be conditions such as matching fund requirements, deadlines for spending, allocations based on specific student groups, or directions from donors.
- **Reporting Obligations:** These funds often come with detailed reporting requirements to ensure compliance and proper use.

Restricted funds typically allow for "indirect costs," which cover the expenses of essential support functions like fiscal reporting, payroll processing, and purchasing. Indirect costs help ensure that necessary support operations are in place.

Unrestricted Funds: These funds are more flexible and can be used for a wide range of purposes. They include:

- **General Operating Revenues:** Such as the base funding from the Local Control Funding Formula (LCFF).

- **Targeted Funds:** Some targeted funds, like Supplemental and Concentration Grant funds, also fall under unrestricted funds but are used for specific purposes while providing more flexibility than restricted funds.

Indirect costs for restricted program revenues are allocated based on the actual expenditures and are reflected as transfers to cover the costs of support services.

General Fund Revenue Components

The District receives funding for its general operations from various sources. The types of major funding sources are illustrated below:

Revenues	2023/24 Estimated Actuals			2023/24 Unaudited Actuals			% Difference
	Unrestricted	Restricted	Total	Unrestricted	Restricted	Total	
LCFF Sources	\$167,432,121	\$3,421,807	\$170,853,928	\$166,088,546	\$3,693,789	\$169,782,335	0.31%

Local Control Funding Formula (LCFF) Overview

The Local Control Funding Formula (LCFF) is California's primary method for allocating state funding to K-12 public schools. It was implemented to create a more equitable, transparent, and flexible funding system that better supports the diverse needs of students across the state.

Key Features of the LCFF:

- 1. Base Grant:**
 - **Foundation Funding:** Each school district receives a base grant per student. This grant varies by grade level—elementary, middle, and high school—with higher amounts provided for high school students to reflect their additional educational needs.
- 2. Supplemental and Concentration Grants:**
 - **Supplemental Grant:** Additional funding is provided based on the number of students who are classified as low-income, English learners, or foster youth. The intent is to give schools extra resources to support students who may need additional assistance.
 - **Concentration Grant:** Districts with a higher percentage of these students (over 55% of the total student population) receive additional funding. This is designed to address the needs of schools where a large portion of students face significant challenges.
- 3. Local Control and Accountability Plan (LCAP):**

- Schools are required to develop an LCAP, which outlines how they will use the funding to improve student outcomes. This plan must be developed in consultation with parents, teachers, and other stakeholders and is reviewed annually.
4. **Flexibility and Accountability:**
 - The LCFF grants local education agencies (LEAs) the flexibility to decide how to best allocate funds to meet their students' needs. However, this flexibility is balanced with accountability measures, as districts must demonstrate how funds are used to achieve specific educational goals and improve student performance.
 5. **Funding Adjustments:**
 - Funding levels are adjusted based on changes in enrollment and other factors, ensuring that allocations reflect current student populations and needs.
 6. **State Budget Integration:**
 - The LCFF funding is integrated into the state budget, which means that changes in state revenue can impact funding levels. However, the formula aims to provide a stable and predictable funding base to schools.

Impact on Budget Planning:

- **Predictability and Stability:** While the LCFF aims to provide more predictable funding, changes in state revenue and shifts in student demographics can affect overall funding levels.
- **Resource Allocation:** Districts must align their budget with their LCAP to ensure that supplemental and concentration funds are effectively used to address student needs.
- **Transparency and Accountability:** Regular reporting on how LCFF funds are used and their impact on student outcomes is essential for maintaining transparency and meeting accountability requirements.

In summary, the LCFF represents a significant reform in how schools are funded in California, emphasizing equity and local control. It provides districts with the flexibility to allocate resources in ways that best support their students while maintaining accountability through the LCAP process.

Federal Revenues

The District has received substantial COVID relief funds from federal sources. Most of these funds are allocated on a reimbursement basis, following a small initial payment. Each funding source has specific requirements, authorized uses, and deadlines for spending.

Utilization of COVID Relief Funds:

- **Hiring Additional Staff:** These funds have been used to hire extra staff to address the impacts of the pandemic on students.
- **Offsetting General Fund Costs:** They also helped offset general fund expenses where allowed, which preserved the ending fund balance and delayed the need for spending reductions.

Title Funds: In addition to COVID relief funds, the District receives various Title funds, such as Title I and Title II. While these Title funds are recurring rather than one-time, they are subject to similar spending and reimbursement rules as COVID relief funds. This includes specific requirements for how the funds must be used and how reimbursement requests must be processed.

Brief Description of Title Funds:

- **Title I:** Provides financial assistance to schools with high numbers or percentages of low-income students to ensure that all children meet challenging state academic standards.
- **Title II:** Supports professional development for teachers and principals to enhance their effectiveness and improve student achievement.
- **Other Title Funds:** Includes additional federal funding sources that support various educational initiatives, such as Title III for English learners and Title IV for student support and academic enrichment.

Other Local Revenues:

Expanded Learning Opportunities Grant

The Expanded Learning Opportunities Grant is a state-funded initiative designed to support and enhance after-school and summer programs for students. This grant aims to provide additional learning opportunities outside of regular school hours to improve academic performance, support social-emotional development, and engage students in enriching activities.

Key Aspects of the Expanded Learning Opportunities Grant:

- **Purpose:** To fund programs that offer extended learning time, including after-school and summer enrichment activities.
- **Eligibility:** Schools and community organizations that provide programs for students in grades K-12.
- **Usage:** Funds can be used for various purposes such as staffing, program materials, service agreements, and facility costs.
- **Requirements:** Grant recipients must meet specific criteria and reporting obligations to ensure the effective use of funds and achievement of program goals.

E-Rate Revenues

E-Rate is a federal program that provides discounts to eligible schools and libraries on telecommunications, internet access, and certain related services. The program aims to make technology and internet connectivity more affordable and accessible to educational institutions.

Key Aspects of E-Rate Revenues:

- **Purpose:** To reduce the cost of technology and communication services for schools and libraries, supporting their ability to provide digital learning environments.

- **Eligibility:** Public and private K-12 schools and libraries that meet specific criteria.
- **Discounts:** Provides discounts on services such as internet access, phone services, and network infrastructure.
- **Process:** Schools apply for E-Rate funding through a competitive process and must follow guidelines for procurement, invoicing, and compliance to receive the discounts.

Other examples of local revenues include donations, facility use fees, and contracts for service.

General Fund Operating Expenditure Components

The General Fund is used for the majority of the functions within the District. As illustrated below, salaries and benefits comprise approximately 82.4% of the District’s Unrestricted General Fund Budget (excluding other financing/uses).

Contributions to Restricted Programs

Transfers of unrestricted resources to restricted programs are necessary to cover restricted program expenditures in excess of revenue. For 2023/24, contributions were required to cover special education and routine restricted maintenance.

Special Education Maintenance of Effort:

Special Education Maintenance of Effort (MOE) is a federal requirement under the Individuals with Disabilities Education Act (IDEA) that applies to local educational agencies (LEAs). It requires LEAs to maintain a consistent level of financial support for special education services from year to year, ensuring that students with disabilities continue to receive necessary funding for their educational needs.

LEAs must either spend at least the same amount of local or state and local funds combined on special education as they did in the previous year. This can be measured in two ways:

1. **Expenditure Basis:** The total amount spent on special education.
2. **Per Capita Basis:** The amount spent per student with disabilities.

There are allowable exceptions that permit LEAs to reduce their MOE spending, such as a reduction in the number of students with disabilities or the retirement of high-cost staff. If an LEA fails to meet MOE requirements, it risks losing federal IDEA funding.

It is important to emphasize that students receiving special education services are general education students first. Special education services are supplementary to the general education they receive. At SRCS, this is typically reflected in the contributions made to special education resource accounts from the unrestricted general fund.

During the fiscal closing process for 2023/24, additional steps were taken to ensure that general education costs were accurately assigned to unrestricted resources and goals. This effort helped prevent any potential inflation of the special education Maintenance of Effort (MOE) calculation.

Routine Restricted Maintenance

In California, local educational agencies (LEAs) are required to allocate 3% of their general fund expenditures to a Routine Restricted Maintenance Account (RRMA) as part of maintaining their school facilities. This requirement, outlined in the state's Education Code, ensures that districts set aside adequate funds for ongoing and routine maintenance, such as repairs and upkeep of school buildings, to preserve the quality and safety of facilities.

The 3% requirement applies to LEAs that receive state funding for school construction or modernization through the School Facility Program. By meeting this requirement, LEAs help ensure that facilities remain in good condition over time and reduce the need for costly emergency repairs.

Summary of Variances from Estimated Actuals/Budget Adoption to Unaudited Actuals

The major difference in reporting periods was actually due to change in accounting practice for the Expanded Learning Opportunity Program funds. The funds have been moved from the unrestricted general fund to a fund 12, which more accurately reflects the intended use of the funds. This change is reflected in the differences between other outgo and indirect cost transfers.

Overall, there was very little variance between the estimated actuals provided in June as compared to the unaudited actuals presented here. The net difference in revenues was -0.11% and expenditures were off by only -0.36% (adjusting for the transfers between Funds 01 and 12). Given the size and complexity of the SRCS budget, this speaks to the level of commitment to detail and accuracy of the fiscal team.

Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

A. Salaries and Benefits - Other General Administration and Centralized Data Processing

- 1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)
(Functions 7200-7700, goals 0000 and 9000) 7,711,205.92
- 2. Contracted general administrative positions not paid through payroll
 - a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800. 0.00
 - b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general administrative position paid through a contract. Retain supporting documentation in case of audit.

B. Salaries and Benefits - All Other Activities

- 1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)
(Functions 1000-6999, 7100-7180, & 8100-8400; Functions 7200-7700, all goals except 0000 & 9000) 201,454,203.09

C. Percentage of Plant Services Costs Attributable to General Administration

(Line A1 plus Line A2a, divided by Line B1; zero if negative) (See Part III, Lines A5 and A6) 3.83%

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. 0.00
Retain supporting documentation.

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. 0.00

Part III - Indirect Cost Rate Calculation (Funds 01, 09, and 62, unless indicated otherwise)

A. Indirect Costs

- 1. Other General Administration, less portion charged to restricted resources or specific goals

Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

A. Indirect costs incurred in the current year (Part III, Line A8)	13,366,992.36
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	(434,756.14)
2. Carry-forward adjustment amount deferred from prior year(s), if any	(624,642.79)
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (5.47%) times Part III, Line B19); zero if negative	0.00
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (5.47%) times Part III, Line B19) or (the highest rate used to recover costs from any program (5.47%) times Part III, Line B19); zero if positive	(609,084.57)
D. Preliminary carry-forward adjustment (Line C1 or C2)	(609,084.57)
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	5.40%
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment (\$-304542.29) is applied to the current year calculation and the remainder (\$-304542.28) is deferred to one or more future years:	5.53%
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment (\$-203028.19) is applied to the current year calculation and the remainder (\$-406056.38) is deferred to one or more future years:	5.57%
LEA request for Option 1, Option 2, or Option 3	1
F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)	(609,084.57)

Approved indirect cost rate: 5.47%
Highest rate used in any program: 5.47%

**MEMORANDUM OF UNDERSTANDING BETWEEN
SANTA ROSA CITY SCHOOLS
AND
THE SANTA ROSA TEACHERS ASSOCIATION

SANTA ROSA MIDDLE SCHOOL HOMEROOM PERIOD**

This Agreement was made and entered into this day, **August 29, 2024**, by and between Santa Rosa City Schools (“District”) and Santa Rosa Teachers Association (“Association”).

The Santa Rosa Teachers Association (hereinafter referred to as Association) and the Santa Rosa City School District (herein referred to as District) have met and negotiated and agree to the following changes at **SANTA ROSA MIDDLE SCHOOL**, effective for the **2024-2025** school year:

1. Cougar Connections Schedule & Time
 - a. Cougar Connection will be Tuesdays and Thursdays
 - i. Tuesdays & Thursdays
 - ii. 22 minutes long
 - iii. After 2nd period in the 6 period day schedule
 - b. Intercom Announcements will occur during Cougar Connection
2. Definition of Cougar Connection Content & Time Use Related Expectations:
 - a. Usage of Cougar Connection Time will include provided content for all periods. Teachers/Advisors will have the flexibility to modify the provided content as long as all objectives for the period are met. Bargaining unit members are expected to take roll and maintain classroom expectations and rules.
 - b. The understanding is that there will be a variety of content provided including school SEL lessons, fun competitions, and student check-ins each week.
 - c. Unit members may choose to use Cougar Connection Time as an outdoor or fun activity in lieu of the provided content, if that is what is determined is best for the group.
3. Cougar Connection Time: All unit members who are .8 or 1.0 FTE will have a Cougar Connection Time group. If two .6 unit members have the ability to have a Cougar Connection Time, and are open to it, they will be assigned a group. No one will be required to teach a Cougar Connection Time class on a day or time that they would not otherwise be working.
 - a. Both Administrators—will have One Group up to 25 students in a targeted Cougar Connection Time group
 - b. Counselors—will provide SEL support space and assist Teachers and Administration

c. Teachers–

- i. Home Room groups for each Bargaining unit member will not exceed 20 students
- ii. Teachers can indicate their preference of a seventh or eighth grade Cougar Connection group, and their preference for:

- students they currently teach in another course,
- students they have taught in past courses, or
- if they have no preference.

This preference will be accommodated to the best degree possible.

- iii. Teachers can indicate if they prefer having a Staff member partner with them, and this preference will be accommodated to the best degree possible

4. Bargaining unit members assigned a Cougar Connection Time agree to partially waive contract language in 14.6.1 regarding maximum student contacts of 165 and 185 but only in regards to students in a Cougar Connection Time class. While unit members acknowledge that students on the Cougar Connection Time class roster do not count toward maximum student contacts in 14.6.1., maximum student contacts and overages as stated in the contract are still in effect for other instructional periods.

- a. Each Cougar Connection group would be “paired” with another Cougar Connection group for support when there are guest teachers and general support.
- b. Additionally, Cougar Connection groups would all be parts of “pods” (4-5 groups) for various larger group activities and team support.

5. This agreement must conform to the California Department of Education requirement of annual instructional minutes as required by Senate Bill 813. If the schedule is found to be out of compliance with Senate Bill 813, the proposed schedule will have to be modified to meet instructional minute requirements or return to status quo.

Minor modifications that do not change the overall structure of the bell schedule can be made with a simple majority vote of the members at the site.(examples: one-time change for special event day, moving breaks or recess slightly).

6. This Memorandum of Understanding will expire on **June 30, 2025**. It may be renewed for a period of one year, and must be renewed by March 31st each renewal year thereafter by a 66% vote of all Association members at Santa Rosa Middle School.

The Association and the District agree that this Memorandum of Understanding shall not constitute a precedent in any grievance proceeding, claim, or litigation raising the same or similar issues.
