

POLICY DEVELOPMENT

Policy Code:

2410

It is the responsibility of the Board of Education to develop, within the bounds of applicable law and regulation, written policies to serve as guides for action for the District. Any Board member, individual, group of citizens, student, parent or employee may initiate proposals for new policies or changes to existing policies, in areas not restricted by law and/or regulations. The initiator must refer the suggestions to the Superintendent for study prior to public discussion of the proposal and Board action.

As appropriate in the development of proposed policies, the Superintendent shall seek input from the Board attorney, other professionals, school system personnel, parents, students and citizens.
