May 2, 2018

MINUTES

1. The meeting was called to order by the State Board of Education District Flexibility and Charter Schools Committee Chair Kevin Boyd at 9:00 A.M.
    - In addition to Mr. Boyd, Committee member Lisa Kinnemore and State Board member Barbara Hampton were present. State Board member Matthew Krull arrived at 9:30 A.M. Committee member Scott Johnson arrived at 9:45 A.M. State Board member Barbara Hampton departed at 10:00 A.M.
    - Georgia Department of Education Associate State Superintendent for Policy, Charter Schools, District Flexibility, and Governmental Affairs Louis Erste; and District Flexibility and Charter Schools (DFCS) Division Director Allen Mueller were also present.
    - Chief Turnaround Officer Dr. Eric Thomas, Charter Advisory Committee (CAC) Chair Mark Whitlock; and Governor's Office of Student Achievement (GOSA) Deputy Director Pascael Beaudette were also present.
    - Also present was a school district charter school staff member, and various district and charter school delegations.

2. Mr. Boyd welcomed the Committee, staff, guests, and others in attendance. Ms. Kinnemore read the Committee's Mission Statement.

3. At Mr. Boyd's request, Mr. Erste presented the Department's recommendation that the SBOE approve a new charter system contract for Pelham City Schools, which is converting from a Strategic Waiver School System. Mr. Whitlock spoke favorably about Pelham City's past performance and confirmed that the Charter Advisory Committee recommends approval of the contract. Pelham City Superintendent Floyd Fort and his team presented information about the system's planned innovations, focusing on the planned career academy and technology integration for students and staff. Follow up questions were asked by Committee members and discussion ensued. Mr. Boyd requested and Ms. Kinnemore made a motion to move this Action

Item onto the Consent Agenda. Ms. Hampton seconded the motion, which was unanimously approved 3-0.

4. At Mr. Boyd's request, Mr. Erste presented the Department's recommendation that the SBOE approve SWSS contract termination for Pelham City Schools, since they will be operating under a Charter System contract. Mr. Boyd requested, and Ms. Kinnemore made a motion to move this Action Item onto the Consent Agenda. Ms. Hampton seconded the motion, which was unanimously approved 3-0.

5. At Mr. Boyd's request, Mr. Erste presented the Department's recommendation that the SBOE approve a new charter system contract for Ben Hill County Schools, which is converting from a Strategic Waiver School System. Mr. Whitlock spoke favorably about Ben Hill County's past performance and confirmed that the Charter Advisory Committee recommends approval of the contract. Ben Hill County's Superintendent Shawn Haralson presented information about the system's planned innovations, focusing on the planned career and Project-Based Learning. Mr. Erste noted that Ben Hill is the first SWSS to apply for a Charter System contract without hitting its SWSS targets, but that the additional flexibility and support tied to a Charter System contract are expected to create an environment for success. Follow up questions were asked by Committee members and discussion ensued. Mr. Boyd requested and Ms. Kinnemore made a motion to move this Action Item onto the Consent Agenda. Ms. Hampton seconded the motion, which was unanimously approved 3-0.

6. AGENDA

State Board Members Present: Mike Long, Helen Rice, Kenneth Mason, Lee Anne Cowart

I. Action Items

1. (Repeal) Repeal of State Board Rule 160-4-2-.01 Quality Core Curriculum and Student Competencies

a. Outdated language and student expectations are not consistent with the language supportive of standards-based curriculum currently included in Georgia law and State Board adopted content standards.
b. The current rule was last amended on March 2, 2002 pursuant to OCGA 20-2-140 and 141.
c. OCGA 20-2-140 was revised in 2012 and in 2015 to include language regarding "standards" instead of "basic skills." This repeal is necessary to comport with OCGA 20-2-140 and State Board adopted content standards.
d. Dr. Garry McGiboney presented the item. It is recommended that the item be repealed.

2. (Adopt) Journalism Standards

a. A formal review and revision process was conducted for Journalism Standards.
b. Working, Advisory, and Academic Review Committees created a draft of high school Journalism standards. These committees included stakeholders from across the state and represented grades 9-12 English Language Arts (ELA) and Journalism teachers, post-secondary educators, ELA coordinators, business and industry representatives, parents, and journalism organizations.
c. Each committee studied current national and international research and trends in the area of journalism. Each committee considered national journalism standards, journalism standards from other states, and current business and industry workforce needs and expectations.
d. An Academic Review Committee reviewed the proposed standards for final edits.
e. The projected date for implementation is school year 2018-2019.

f. Dr. Garry McGiboney presented the item. This item will be placed on the Consent Agenda.

3. (Adopt) Dramatic Writing Course

a. This course was submitted by the Fayette County Public Schools in partnership with the Georgia Film Academy. The Dramatic Writing course includes embedded writing and literature standards from the English Language Arts (ELA) Georgia Standards of Excellence. Representatives from the film and television industry, staff from the University System of Georgia and the Technical College System of Georgia, as well as Fine Arts and English Language Arts educators were included in the process.
b. An Advisory Committee representing high school and postsecondary ELA and Fine Arts teachers, business and industry, and instructional leaders reviewed and approved the recommended course.
c. An Academic Review Committee reviewed the proposed course for final edits and recommended course for posting.
d. The projected date for implementation is school year 2018-2019.
e. Dr. Garry McGiboney presented the item. This item will be placed on the Consent Agenda.

b. Working, Advisory, and Academic Review Committees were created to draft K-12 P.E. Georgia Standards of Excellence. These committees included stakeholders from across the state and represented K-12 and post-secondary P.E. teachers and coordinators, business and industry, and other P.E. related organizations.
c. An Academic Review Committee reviewed the proposed course for final edits and recommended standards for posting.
d. The projected date for implementation is school year 2019-2020.
e. Dr. Garry McGiboney presented the item. This item will be placed on the Consent Agenda.

5. (Adopt) Fine Arts Standards (Music and Dance)

a. In the Fall and Winter 2017-2018, a formal review and revision process was conducted for the K-12 Fine Arts in the areas of Music and Dance.
b. The review process included a public survey opportunity in August of 2017 for 30 days. Teacher and stakeholder survey results informed the revision process.
c. Working, Advisory, and Academic Review Committees were created to draft the K-12 Georgia Standards of Excellence in the areas of Music and Dance. These committees included stakeholders from across the state and represented K-12 and

post-secondary Fine Arts teachers and coordinators, business and industry, parents, and other Fine Arts organizations.

d. An Academic Review Committee, consisting of representatives from the K-12 writing and advisory committees, K-12 instructional leaders, post-secondary educators, Georgia Council for the Arts, business and industry, and Department of Education leadership staff and some State Board of Education members, reviewed and finalized the draft standards.
e. The projected date for implementation is school year 2019-2020.
f. Dr. Garry McGiboney presented the item. This item will be placed on the Consent Agenda.

6. **(Post) Computer Science Courses for Middle Schools**
   a. In the Fall and Winter 2018, the Department formed working groups that included local school system teachers, college staff members, experts in the field, industry representatives, military experts, and businesses to identify the courses needed in the middle school grades that would prepare students for more rigorous computer science classes in high school. The committee recommended and developed three computer science courses.
      - **Exploratory Foundations of Secure Networks**
        The course will provide an exploratory foundation in information systems, networking, and cybersecurity.
      - **Exploratory Foundations of Computer Programming**
        The course will provide an exploratory foundation in computer programming.
      - **Exploratory Foundations of Interactive Design**
        The course will provide an exploratory foundation in design and development of websites and games.

   b. The courses were posted for public comment.
   c. Dr. Garry McGiboney presented the item. This item will be placed on the Consent Agenda.

7. **Special Needs Scholarship List Program-2018-2019 Private School List**
   a. O.C.G.A. § 20-2-2115 requires the State Board of Education to authorize private schools that will be eligible to participate in the Georgia Special Needs Scholarship (GSNS) Program.
   b. The GSNS Program enrollment history:
      1. 2015-2016 = 4,154 SNS students
      2. 2016-2017 = 4,477 SNS students
      3. 2017-2018 = 4,560 SNS students
   c. Private schools that are interested in participating in the GSNS program have until June 30, 2018, to apply for the 2018-2019 school year.
   d. Having met the GaDOE's eligibility requirements, the following private schools are seeking approval to participate in the GSNS program: Collective Learning Academy of Georgia; Community Christian Academy; Excel Christian Academy;

George Walton Academy; Monroe County Day School; The Elite School 101, Sylvan Academy, and Terrell Academy.

e. Dr. Garry McGiboney presented the item. This item will be placed on the Consent Agenda

8. **State Advisory Panel for Special Education**
   a. Federal regulations of the Individuals with Disabilities Education Act (IDEA) and State Board Rule 160-4-7-.01 require the establishment of a Statewide Advisory Panel (SAP) to serve as an advisory group to the Georgia Department of Education – Division of Special Education Services on issues related to special education and related services.
   b. The composition of the SAP must include a majority of parents of children with disabilities or individuals with disabilities.
   c. Consideration of panel selection also includes demographics, disability area, the age of the students whose parents are panel members, and the area of the state represented. SAP members serve three-year terms.
   d. Dr. Garry McGiboney presented the item. This item will be placed on the Consent Agenda

9. **Local Board Governance Training Providers**
   a. The State Board of Education adopted training requirements for local school boards of education as required by O.C.G.A. § 20-2-230 (b).
   b. The providers were solicited by posting a Request for Proposal (RFP) on the Georgia Department of Education website. The previous providers were sent an RFP by email.
   c. 25 potential providers submitted applications.
   d. Providers must give the Department details of their training program, qualifications and experience of their instructors, names of the courses they propose to deliver, and they must include a nepotism agreement for each instructor.
   e. All new board members must receive 15 hours of training by approved providers and all veteran board members must receive 9 hours annually of training by approved providers. Financial training is required but can only be delivered by the Georgia Department of Education Finance and Budget Office.
   f. It is recommended that the State Board of Education approve the list of 24 Local Board Governance Training Providers for the 2018-2019 school year.
   g. Dr. Garry McGiboney presented the item. This item will be placed on the Consent Agenda

Cayen Systems, LLC	7/1/2018-6/30/2019	Nathan Schult	$67,765.00	To maintain and support existing Cayen AS21 Data Management System for each of the state's 233 21st CCLC sites with licenses to access the data management system, and 2) provide GaDOE staff access to oversee and manage the data	Federal 12318	Renewal #4	Title IV Part B - 21st Century Community Learning Centers	Renewing contract to reflect changes in total amount due to associated cost for new and improved interface as well as increased web trainings. The total amount paid for FY18 was $63,169.00

Last Year Performance Criteria and Results:

On an annual basis through this contract, the GaDOE Title IV, Part B - 21st Century Community Learning Centers Program (21st CCLC), used the Cayen (AS21) Data Management System to manage and collect pertinent sub-grantee data for 21st CCLC sites including Average Daily Attendance (ADA) as well as outcome data towards the achievement of annual program objectives and stakeholder survey data as required by the Elementary and Secondary Education Act of 1965. This contract allowed the Georgia Department of Education the ability to monitor programs as well as collect required information that will be submitted annually to the U. S. Department of Education. This renewal ensures that the GaDOE will maintain program performance data and be able to continue to comply with the unique Federal data reporting requirements of the Title IV, Part B - 21st Century Community Learning Centers Program. All deliverables and milestones were met during the FY17 contract period.

This Year Performance Criteria, Summary and Results:

For the FY18 fiscal year, all deliverables and milestones are being met. The vendor has set-up new sites, provided technical assistance, professional development, software, and online log-on licenses as required in the contract.

TROMIK Technology Corporation	7/1/2018-6/30/2019	Israel Cortez	$65,450.00	To maintain existing COEstar migrant student data systems in use by GaDOE's two (2) regional Migrant offices and two (2) state locations to manage migrant student data/information.	Federal 11038 (100%)	Recurring (21 yrs)	Title I Part C - Migrant Education Program	Requirements from the U. S. Department of Education for data submissions from Georgia to the Migrant Student Information Exchange (MSIX) have been steadily increasing and official US ED MSIX regulations are now in place. Increased frequency of submissions will continue to include additional minimum data elements on course history to date and grades to date for migratory children and youth. The vendor reevaluated their technical support for current year and determined that a reduction of support time is justified for both regular support time and the MSIX support. This resulted on a reduction in cost for FY19 contract.

Last Year Performance Criteria and Results:

On an annual basis through this contract, the GaDOE Title I, Part C - Migrant Education Program (MEP) will use the COEstar Information System to collect Certificate of Eligibility (COE) and other pertinent data about migrant children as required by the Elementary and Secondary Education Act of 1965. The GaDOE will use five (5) licenses to collect COE information during the year, create reports for school districts providing services to migrant children, and create reports for the Georgia's Consolidated State Performance Report (CSPR) submitted annually to the U. S. Department of Education. This renewal ensures that the GaDOE will maintain program performance data and be able to continue to comply with the unique Federal data reporting requirements of the Title I, Part C - Migrant Education Program. For the FY18 fiscal year, all deliverables and milestones were met. The vendor provided technical assistance, professional development, software, and online log-on licenses as required in the contract.

This Year Performance Criteria, Summary and Results:

For the FY18 fiscal year, all deliverables and milestones are being met. The vendor has provided technical assistance, professional development, software, and online log-on licenses as required in the contract. The vendor developed our portal to collect and share course history. The vendor completed and supported implementation of our supplemental service online data collection portal. Additionally, the vendor successfully supported the GaDOE MEP during the Consolidated State Performance Report (CSPR) that is submitted to US ED each year.

Code: IDA(1)

160-4-2-. 01 THE QUALITY CORE CURRICULUM AND STUDENT COMPETENCIES.

(1) **PURPOSE**. State law requires that the State Board of Education establish competencies that each student shall master prior to completing public school education and adopt a uniformly sequenced curriculum for grades kindergarten through grade 12 based on these competencies. The state board shall also establish optional competencies that each student shall be provided opportunities to master. Students shall master these competencies as they relate to their program of study.

(2) **DEFINITIONS**.

(a) **Agricultural Education** – the science and art of producing, harvesting, processing and marketing of plants and animals useful to man, as well as the stewardship of environmental and natural resources. Agricultural education prepares and supports individuals for careers or higher education, builds awareness of the food, fiber and natural resource systems and develops individuals for leadership roles in agricultural and environmental sciences.

(b) **Basic skills** - skills or abilities that serve as tools for acquiring and applying other skills and knowledge, such as reading, writing, speaking, viewing, listening, mathematics, and computer technology. These skills are interdependent and shall be included in all academic subjects and disciplines.

(c) **Competencies** - abilities and qualities necessary for students to reach their potential as individuals and citizens.

(d) **Language Arts** - the competencies and basic skills listed in this rule and should also include additional opportunities for study in areas such as drama, language, literature, mass media, nonverbal communication, and speech. Decisions regarding what constitutes standard English, major works, and important writers should be reviewed often, using a variety of sources.

(e) **Fine Arts** - a quality education in one or more of the following areas - dance, music, theater and the visual arts. These programs of study should help students develop creativity, acquire problem-solving, critical and evaluative skills, build skills in production and performance and develop an understanding of history and culture.

(f) **Foreign Language** - knowledge of the language's sound system, grammar, and vocabulary, and of the culture of native speakers. In order to increase the likelihood of fluency in language, it is desirable to begin instruction in elementary grades. Proficiency in a foreign language only can be obtained through a course sequence that extends beyond two years. Intermediate and advanced foreign language courses should include socio-cultural, aesthetic, and literary content, as well as grammar, linguistics, and phonetics.

(g) **Health Education** - knowledge, skills, and opportunities students need to make decisions that lead to an optimal level of well-being and healthful living.

(h) **Mathematics** - understanding and being able to use mathematical concepts and operations, solve problems, and analyze and draw conclusions.

(i) **Physical Education** - knowledge, understanding, values and experiences in physical activity as they relate to healthful living and quality use of leisure time. Content should include principles for developing and maintaining skilled performance, endurance, strength and flexibility.

(j) **Quality Core Curriculum (QCC)** - a uniformly sequenced core curriculum for grade kindergarten through grade 12 composed of content standards.

(k) **Science** - the study of matter (living and non-living things), the study of change (the nature of things), and the study of energy (the cause of change). Studies in science should include activities that allow students to conduct natural and experimental
observations, and demonstrate that technology is a product of scientific inquiry.

(l) **Social Studies** - concepts and methodologies of the disciplines of history, geography, political science, economics and behavioral sciences. Students should study these disciplines as they apply to self, family unit, community, state, region, nation, and the world.

(m) **Technology /Career Preparatory Education** - a sequential program that includes career awareness, exploration and career preparation, and prepares students for work or postsecondary education. At the secondary level, course offerings will be based on community and regional needs with a special emphasis on emerging technology. Students may also participate in work based experiences in a wide range of occupations, as well as leadership and skill development group activities.
160-4-2-.01 (Continued)

(n) **Technology Integration** – the inclusion of appropriate technology that facilitates, individualizes, enhances, and enriches learning of the Quality Core Curriculum.

(3) **REQUIREMENTS.**

(a) The State Board of Education shall establish a task force broadly representative of educational interests and the concerned public at least once every four years to review the adopted competencies and the Quality Core Curriculum (QCC). After considering the findings and recommendations of the task force, the state board shall make such changes in the student competencies lists and core curriculum as it deems in the best
interest of the state and its citizens, and shall report such proposed changes to local units of administration (LUA's) and the General Assembly for review.

(b) Each LUA shall include the Quality Core Curriculum (QCC) as the basis for its curriculum, although each LUA may expand and enrich this curriculum to the extent it deems necessary and appropriate for its students and communities.

(c) LUA's shall base classroom instruction on the QCC document. By reference, that document is made a part of this rule.

(d) Every student is expected to master the following basic skill competencies prior to completion of the twelfth grade.

1. Reading, writing, speaking, viewing, listening.

(i) In the area of reading, the student is expected to

(I) Decode unknown words automatically and determine word meanings using word recognition skills and/or contextual clues.

(II) Explain the main and subordinate ideas in written work, whether the ideas are directly or indirectly stated.

(III) Interpret written instructions.

(IV) Make valid inferences (make predictions, apply information, draw conclusions, make generalizations) from material.

(V) Use dictionaries, parts of books, electronic technologies and other reference sources to locate information.

(VI) Demonstrate the intent to persuade or mislead in material.

(ii) In the area of writing, the student is expected to

(I) Use standard language patterns and mechanical conventions in spelling, punctuation, grammar and penmanship;

(II) Write business and personal communication;

(III) Write explanations, descriptions, narration, and persuasion;

(IV) Select and organize ideas and information into paragraphs;

(V) Adjust writing for purpose, situation, and audience;

(iii) In the area of listening, viewing and speaking, the student is expected to

(I) Follow oral instructions;

(II) Interpret oral messages;

(III) Evaluate and explain the intentions and messages of media;

(IV) Use standard language patterns;

(V) Convey verbal information clearly;

(VI) Use spoken language to suit a variety of situations;

2. Mathematics

(iv) In the area of mathematics, the student is expected to

(I) Represent and use numbers, and number concepts in a variety of forms (including whole number, fraction, decimal, integer, rational, percent, ratio, proportion, exponential, and scientific notation) and in everyday and mathematical problem situations;

(II) Make and use measurements and estimates of measurements (including length, capacity, weight, mass, area, perimeter, volume, time, temperature, angle, and indirect measurements) in everyday and problem situations and select and use appropriate units and tools to measure to the required degree of accuracy;

(III) Use mathematical expressions, equations, inequalities, tables, and graphs to represent and interpret situations that involve variable quantities; and apply methods to solve a variety of everyday and mathematical problems;

(IV) Recognize and use geometric shapes, properties, and relationships; and apply geometric concepts and relationships to form and function in the physical world and in problem situations;

(V) Select and use appropriate procedures, tools, and strategies to compute and estimate with various forms of numbers; and use computation and estimation to solve problems and make sure results are reasonable;

(VI) Use language and symbols to communicate mathematical concepts, procedures, and problem-solving processes, and to read, write, listen to, discuss, and represent mathematical ideas.

(VII) Connect ideas and their representations within mathematics and between mathematics and other disciplines, such as science, art, music, social studies, language arts, and business.

(VIII) Collect, organize, present, describe, analyze, and interpret information or data using tables, charts, graphs, and spreadsheets; make inferences, predictions, arguments, and evaluations based on data analysis; and apply statistical measures and techniques to solve problems.

(IX) Use concepts of chance (involving either experimental or theoretical probability, as appropriate) to represent and solve problem situations involving uncertainty;

(X) Use problem-solving approaches to investigate mathematical content; recognize and formulate problems from mathematical and everyday situations;

(XI) Select and use appropriate approaches and tools in solving problems (mental computation, paper-and-pencil techniques, calculator, and computer);

(XII) Develop and apply strategies to solve a wide variety of problems;

(XIII) Apply the process of mathematical modeling to everyday problem situations;

(XIV) Explore, conjecture, evaluate, and reason logically (using various reasoning processes such as proportional, spatial, or algebraic reasoning) to reach a valid and supportable conclusion and judge whether results are reasonable;

3. Computer Technology and Technology Integration.

(i) In the area of computer technology, the student is expected to

(I) Demonstrate the essential knowledge and skills necessary to use technology effectively;

(II) Demonstrate personal productivity in uses of technology to organize, display, and present ideas and information and in uses of appropriate software for self-instruction;

(III) Demonstrate technology skills for sharing ideas and information within and beyond the classroom;

(IV) Demonstrate appropriate and ethical behavior in regards to information and information technology;

(V) Demonstrate uses of technology to collect, retrieve, and apply information from a variety of sources;

(VI) Demonstrate uses of technology to solve problems and make decisions.

(e) Just as the basic skills described above are taught and reinforced in all subject areas, the academic subjects listed as follows are interrelated and overlapping. The academic subjects are separated for convenience.

1. English language arts.

(i) In the area of English language, the student is expected to

(I) Explain how the English language has developed and changed;

(II) Demonstrate understanding that English has many dialects;

(III) Recognize that language is a powerful tool for thinking and learning;

(IV) Use English properly, according to grammatical systems and patterns of usage;

(V) Recognize how content (topic, purpose, audience) influences the structure and use of language;

(VI) Develop and expand vocabulary.

(ii) In the area of literature, the student is expected to

(I) Select and read various forms of literature (prose, short stories, poetry, drama);

(II) Demonstrate critical thinking skills by interpreting, analyzing and forming judgments regarding various forms of literature;

(III) Demonstrate awareness of major classical and contemporary works of literature;

(IV) Demonstrate knowledge of writers representing diverse cultures.

(iii) In the area of communication skills, the student is expected to

(I) Take notes on important points in lectures and discussions;

(II) Prepare original creative writings;

(III) Speak before a variety of audiences.

(IV) Locate and use resources to prepare research papers, essays, and reports.

2. Science.

(i) In the area of science, the student is expected to

(I) Use critical thinking and process skills in effective decision-making as outlined in the scientific method of problem-solving.

(II) Demonstrate appropriate use of reference sources to access, analyze, evaluate, and present information related to research problems.

(III) Demonstrate a basic understanding of the geological and atmospheric processes that create our natural environment.

(IV) Demonstrate an understanding of the composition of the universe and the relationship among celestial objects.

(V) Demonstrate an understanding that matter is composed of solids, liquids and gases of a definite structure and that these physical states are composed of atoms and molecules that combine according to established principles.

(VI) Demonstrate a basic understanding of energy, its various forms, its nature, its sources, its limits and its uses.

(VII) Understand that machines extend the physical capacity of human beings to do work and make measurements.

(VIII) Demonstrate knowledge of the structure, function, and processes of cells.

(IX) Exhibit a basic scientific understanding of various organisms, the interactions among them, and their own interaction with their environment.

(X) Understand the genetic basis for the transfer of biological characteristics from one generation to the next.

(XI) Understand the need to protect the interdependent relationship between people and the environment.

3. Social studies.

(i) In the area of social studies, the student is expected to demonstrate skills in the following areas

(I) Time and Chronology: Demonstrate an understanding of the role that the past plays in shaping the present, and the role the present plays in shaping the future.

(VIII) Place and Location: Investigate places on the earth and the interaction between those places and the people who live in them.

(IX) Cultural Understanding: Demonstrate a knowledge of shared and unique cultural characteristics that encourage cooperation among people of the world.

(X) Civic Competence: Demonstrate an understanding of and appreciation for democratic values, institutions and ways of life in the United States and how this country compares to other nations.

(XI) Economic Issues: Identify how people organize for the production, distribution and consumption of goods and services in the free enterprise system, and compare this process to other economic systems.

(XII) International Connections: Describe from multiple perspectives the increasingly interdependent process of change and the nature of prevailing world conditions and emerging global trends.

(XIII) Behavioral Sciences: Exhibit knowledge of individual development and identity, as well as knowledge of how individuals, groups and institutions interact.

(XIV) Technology and Society: Analyze and evaluate the impact of technology on society.

(XV) Social Science Skills: Select and apply social science skills including: integrated use of technology, problem-solving and decision-making, chronological relationships, social participation, and maps and globes.

4. Health education.

(i) In the area of health education, the student is expected to

(I) Comprehend concepts related to health promotion and disease prevention;
