To: Members of the Central Community School Board

From: Dr. Jason Fountain, Superintendent

Subject: Request for Services

To remain proactive in planning for the future, I am asking the board's permission to engage the services of two (2) vendors.

The first vendor is requested to conduct a demographic study. This study will provide a five-year detailed projection of the school-age population for the Central Community School System. The study will also provide a general trend analysis for years 6 through 10.

The second vendor is requested to conduct a full in-depth facilities assessment of Central High School to provide a baseline of data to know the current condition and needs of that school.

Your favorable consideration of this recommendation is respectfully requested. Should you have any questions, please feel free to contact me.
