### Fee Waivers/Fee Reduction for SAT, AP and PSAT/NMSQT

Note: The number of PSAT/NMSQT fee waivers reported reflects those students whose test fees were covered by a fee waiver or an agreement with the state or district designed to support students underrepresented in college-going populations. As part of such an agreement, the state or districts paid the test fees for juniors at a reduced cost.

### Data Notes

**SAT Participation and Performance:** Data reflect 2017 high school graduates who took the new SAT during high school. If a student took the SAT more than once, the most recent score and self-reported SAT questionnaire responses are summarized. SAT data contained in this report reflect a frozen snapshot of College Board's integrated data system as of July 30, 2017. Thus results may differ slightly from analyses run at other points in time or based on different population definitions. For example, the SAT cohort in the K12 reporting portal reflects students in the class of 2017 who took the old or new SAT during high school, and these data are updated weekly.

**AP Participation and Performance:** AP Exams are administered in May each year. Statistical Information about AP Exam takers is based on all students taking AP for each year reported.

**PSAT/NMSQT and PSAT 10 Participation and Performance:** Data reflect students who took the PSAT/NMSQT and/or PSAT 10 during the 2015-16 or 2016-17 school years. If a student tested more than once, the most recent score and self-reported questionnaire responses are summarized. PSAT/NMSQT participation trends from the October 2012-2014 administrations are also presented.

**PSAT 8/9 Participation and Performance:** Data reflect students who took the PSAT 8/9 during the 2015-16 or 2016-17 school years. If a student tested more than once, the most recent score and self-reported questionnaire responses are summarized.

**Mean Scores:** Throughout this report, mean scores are only reported for populations consisting of at least ten students.

**Racial/Ethnic Background:** Beginning in the 2015-16 school year, collection and reporting of race/ethnicity was updated to reflect U.S. Department of Education guidelines. The optional two-part question asks students to indicate their racial and ethnic group membership(s). The categories provided for the race question are American Indian or Alaska Native; Asian (including Indian subcontinent and Philippines origin); Black or African American (including Africa and Afro- Caribbean origin); White (including Middle Eastern origin); and Native Hawaiian or other Pacific Islander. The categories provided for the ethnicity question are Cuban; Mexican; Puerto Rican; Another Hispanic, Latino, or Spanish origin; or Not of Hispanic, Latino, or Spanish origin. A small percentage of students do not provide a response to one or both questions. Students may select all that apply to them. Prior to 2016, the Asian category was presented as Asian, Asian American, or Pacific Islander. Additionally, the Cuban option was introduced in 2016 as a new Hispanic ethnicity subcategory. In prior years a student may have identified as Other Hispanic, Latino, or Latin American if they were of Cuban origin. Due to these changes we encourage caution when making comparisons between these new race/ethnicity data and data from years prior to 2015-16. In addition, due to these changes, some trend data may not be available.

Note the following regarding abbreviations of the reporting categories - American Indian includes Alaska Native, Black includes African American, and Pacific Islander includes Native Hawaiian. Although "Other" as an option has been discontinued it may continue to be reported for historical reporting purposes. Students who are reported as "Two or more races" are non-Hispanic. Hispanic includes all students who self-identified as Cuban; Mexican; Puerto Rican; or Another Hispanic, Latino, or Latin American on the ethnicity portion of the race/ethnicity questionnaire.

**Change from Last Year:** The change from last year for frequency data (number of test-takers or exams) is represented as a percentage change. It is obtained by subtracting the previous year's total from the current year and then dividing this difference by the previous year's total, which is then multiplied by 100.
