Description of Services		Consideration			Evaluation and Metrics		
ClassLink enables SRCS to manage student and staff access to online instructional resources via Single Sign On and manage licenses assignments based on rostering provided from the School Information System (Aeries). Classlink also provides analytics for the usage of online resources to enable financial decisions for renewals. In addition ClassLink provides an easy way for users to manage their passwords and allows teachers to assist students with passwords resets.		The use of online instructional resources has increased dramatically since the beginning of the pandemic and the current trend is that this model is going to continue and expand as school districts adapt to more flexible instructional paradigms including online instruction. SRCS purchased an yearly subscription to ClassLink last year to enable staff and students to easily access with one password most of SRCS approved online resources, including textbooks. Through integration with different School Information Systems, including Aeries, ClassLink enables SRCS to stay compliant with licensing requirements ensuring that the correct licenses are distributed to the correct users. ClassLink can provide useful insights about the use of the online resources that corroborated with student achievement analytics at different schools can guide the purchasing/renewal process for these resources. Since ClassLink is such a central part of enabling student access to instructional materials we recommend perpetual renewal of this license.			Students and staff gain timely access to instructional material. SRCS meets maintains licensing requirements with different vendors supported via ClassLink.

SCOE's Rooster Fellowship support team meets with 3 SRCS Rooster teams, weekly, provides access to the Qualtrics Dashboard, a technology lending library & facilitation, offers monthly PD with national content experts in the fields of empathy, equity & engagement. This is a continuation of the MOU that was Board approved on October 10, 2018. Themes include MTSS, Restorative Practices & increasing student voice & engagement.			This FERPA data sharing MOU protects the district when sharing student information with SCOE via the QUALTRICS software. The data is viewed anonymously and is disaggregated. (We can see the trends by demographics, but we cannot view which student said what.) There are remaining Rooster funds (\$900) and additional opportunities to receive funds from SCOE to support participation & implementation of strategies.			Qualtrics Data: frequent student surveys reveal trends on their opinions related to engagement, belonging, & relevance of school- as reported via Qualtrics.
