

**Santa Rosa City Schools**  
**Data/Technology Education Dashboard**  
**Essential Needs and Possible Wants**

<b>Needs</b> (must have)	<b>Check Mark and Notes Column</b> (does the Dashboard have this functionality/meet this need)
<p>1. Integration with the suite of SRCS other technological platforms, applications, and programs.</p> <ul style="list-style-type: none"> <li>a. Examples include Aeries, Panorama, NWEA MAP, Illuminate DNA, Let's Go Learn, Ellevate, etc</li> <li>b. As new platforms, applications and programs are brought on, these can be easily integrated as well</li> </ul>	
<p>2. Ability to disaggregate and drill down into the data.</p> <ul style="list-style-type: none"> <li>a. It is important to see groups, demographics, socioeconomics.</li> <li>b. Must be able to move between a macro and micro level from cohorts at grade levels across the district to classroom and student data views.</li> <li>c. As part of this, data level views must include color coded bands for ease of viewing and quickly understanding larger cohort views.</li> </ul>	
<p>3. Reports</p> <ul style="list-style-type: none"> <li>a. Easy to use</li> <li>b. Multiple pre-created</li> <li>c. Ability to build custom reports with company representative support or on our own</li> <li>d. Multi-year views and comparability (longitudinal year over year data)</li> <li>e. Graphs, charts, and pre-created visuals in reports besides numbers (easy to visualize what numbers mean)</li> <li>f. Reports illustrate growth and progress</li> <li>g. Reports provide early warning notification</li> <li>h. Student level reports with multiple data points is pre-created and easy to generate</li> </ul>	
<p>4. Easy to use the Dashboard overall</p>	

(accessibility and functionality) <ul style="list-style-type: none"> <li>a. Intuitive interfaces</li> <li>b. Simple navigation</li> <li>c. Easy to explain to others</li> <li>d. All job roles in SRCS can access and find what they need</li> </ul>	
5. Data from local district assessments can be easily uploaded and integrated	
6. Robust Self Help Features <ul style="list-style-type: none"> <li>a. People can answer their own questions with guided self help</li> <li>b. Easy to access and find “how to” guides, pointers, explanations</li> <li>c. Individuals can enter questions for self help direction</li> </ul>	
7. Implementation <ul style="list-style-type: none"> <li>a. What does SRCS need to commit to</li> <li>b. What are time commitments</li> <li>c. What are key players/roles we need internally to get it off the ground</li> <li>d. Clear break down to understand the scope of our responsibility and obligations moving forward with your platform</li> </ul>	

<b>Wants</b> (would like to have)	<b>Check Mark and Notes Column</b> (does the Dashboard have this functionality/meet this need)
1. Single Sign On/Seamless login experience	
2. Can interface with and allow for forms, documents, etc. to be uploaded and maintained (for SSTs, 504s, etc.) and interfaced with	
3. Can “hold” actual district assessments (storehouse)	
4. Training, professional development, support, and a live contact included in purchase	
5. Customization is easily implementable and timely (customization additions go “live” within weeks)
