Description of Services		Consideration			Evaluation and Metrics		
Annual maintenance of the HVAC units that service the main network rooms at various sites.		During the summer times the temperatures run very high in the rooms with network and server elements ensuring sites connectivity to the internet. In order to prevent the failure of the network services due to overheating of this expensive equipment SRCS installed separate HVAC units in the these rooms to keep the temperatures down. This contract insures that these HVAC units are properly maintained during the year so they perform as required.			N/A
