FROM: Michael Shepherd, Assistant Superintendent of Human Resources

SUBJECT: Authorizing Teachers to Teach Outside of Their Major or Minor- Teacher Consent Report

As of September, based on the 2022-2023 master schedules of class assignments, the following teachers were being asked to teach outside of their major or minor fields. To support the principals' class schedules, we are requesting the Board approve the following list of teachers to teach outside of their credential area through provisions set forth in Education Code and Board Policy 4113. Board Policy 4113 reads: "With his or her consent, a full-time teacher with special skills and preparation outside of his or her credential authorization may be assigned to teach in the areas of his or her special skills, provided the assignment is approved by the District". With respect to the following teachers and their class assignments, you will notice the majority of the classes are electives. In some cases, there is no credentialing in the area. Teachers have been asked to keep in contact with their Human Resources Technician who will keep a list of units, workshops, seminars and other activities attended to support their knowledge and skills to keep course curriculum relevant.
