Mrs. Sharla Osbourn
Assistant Superintendent
Mr. Jim Davis
Assistant Superintendent

To Whom it may Concern,

Here at Rogers Public Schools we implemented the N1C LR2000 UPS models for all of our network closets. Currently we have 112 of the UPSs in place. For us we have had no issues with the product and that we have come across during placement. We also have the network cards connected to monitor all UPSs for status. On another note our maintenance department purchased 100+ units also to maintain power to all of their security servers and cameras.

Tony McKinstry
