

To whom it may concern,

I am writing this letter to express our satisfaction with N1C and its related UPS products. Over a year ago, our district identified the need to unify and refresh our aging UPS infrastructure. With over 700 IDF's supporting over 1.2k switches, this was no small undertaking. After much market research we ultimately chose N1C due to their unmatched 10-year warranty and integrated network management capabilities. Their engineer and sales teams combined with channel partners, were very accommodating in helping our team make this decision.

We have so far successfully deployed over 400+ N1C.L1000's and are very satisfied with the product itself. It simply works as advertised and is much easier to install with its reduced size/weight compared to traditional lead-acid UPS's.

If there is anything I can clarify or answer regarding this referral, please feel free to contact me directly.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jahaziel Gamez". The signature is fluid and cursive, with a long horizontal stroke at the end.
