Description of Services		Consideration			Evaluation and Metrics		
As a continuation and expansion from a previous MOU, SRCS secondary school classified employees will be offered paid training and ongoing community of practice support from the SCOE behavioral health department via a Behavior Health & Justice grant. Classified employees that work with responding to students behaviors can voluntarily receive training outside of the work year for pay. Approximately 18 classified employees benefited from such training in the 22-23 school year.		This work is aligned with our SRCS initiatives: cultural responsiveness, de-escalation and social-emotional wellness. This relevant, supportive collaboration over the school year will increase coordination in how teams respond to mental-health crisis students by using more training to those likely to encounter a student in need.			Reduce the Number of calls to the SRPD or sheriff for students in crisis.
