Mission Moberly: Designing the Future

Strategic Goal: 1.0 Career and College Readiness

All students will be educated to develop strong foundational and analytical problem solving skills to graduate ready for post-secondary success.

Priority 1.2:

Provide students at all grade levels multiple pathways to post-secondary education programs and career opportunities through career exploration.

Focus 1.2.2

Create an internship/career based program that provides students work experiences in passion-driven, career-oriented pathways of study with real world business and industry across the community. (i.e. Career and Professional Studies)

Where We've Been

- 1st Semester Completed
- Networking
- Finding our Stride

Success!

- Experiences
- New Community Partners
- Projects
- Student Excitement

Where We Are Going

- Program Development
- Partnership with MACC
- Community Awareness of Program
- Ongoing Professional Development
- Essential Skills Boot Camp

Mission Moberly 1.2.2 Score Card

College & Career Readiness						
1.2.2: Create an internship/career based program that provides students work experiences in passion-driven, career-oriented pathways of study with real-world business and industry across the community. (i.e. Career and Professional Studies (CAPS))						
Measures/Indicators		Scoring Guide				
1	CAPs Program Enrollment increase to 80 students including consortium students	15 students	30 students	60 students	80 students including consortium schools	100 students including consortium schools
2	CAPSs Program will offer work experiences across at least 3 strands	1 strand	2 strands	3 strands	4 or more strands	
3	Student work experiences are career-oriented and provide meaningful engagement opportunities with community partners. (Community & Student Surveys)	Less than 70% of students and community partners indicate work experiences provided meaningful career-oriented opportunities	70-79% of students and community partners indicate work experiences provided meaningful career-oriented opportunities	80-89% of students and community partners indicate work experiences provided meaningful career-oriented opportunities	90% or more of students and community partners indicate work experiences provided meaningful career-oriented opportunities
