

INFORMATION MEMORANDUM

TO: Board of Education

FROM: Dr. Tanzy Kilcrease, Assistant Superintendent of Teaching & Learning

SUBJECT: End of the Year Professional Learning Plan

Summary

During the last three weeks of school, the Bibb County School District instructional support staff (teachers, administrators, paraprofessionals, counselors, Media Specialists, Media Clerks, instructional coaches and Central Office staff) participated in nine days of virtual professional learning to learn more about Response to Intervention (RtI), technology and Renaissance Learning.

Background

In April, the Board of Education approved for the Bibb County School District to end eLearning for students on May 1 to implement an End of the Year Professional Learning Plan. Over 1,600 staff members participated in nine days of professional learning. The Teaching and Learning, Technology, Research, Evaluation, Assessment and Accountability, Special Education and District Effectiveness Departments collaborated to provide meaningful professional learning to help teachers and staff prepare for the upcoming school year. The evaluation data collected (see attachment) overwhelmingly demonstrate faculty and staff believed the training was relevant. Implementing the professional learning plan has helped us discover new modalities for providing professional learning opportunities for our staff.

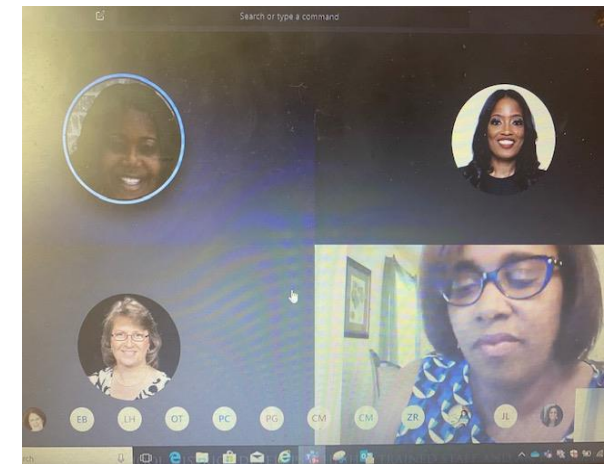

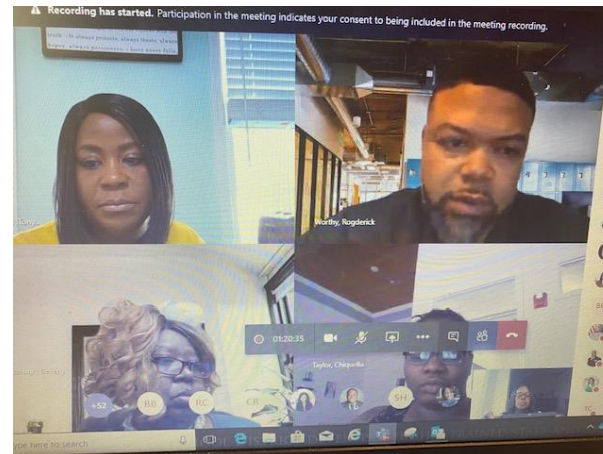

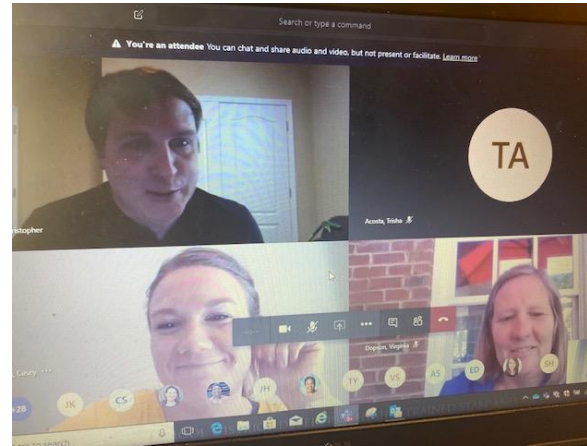

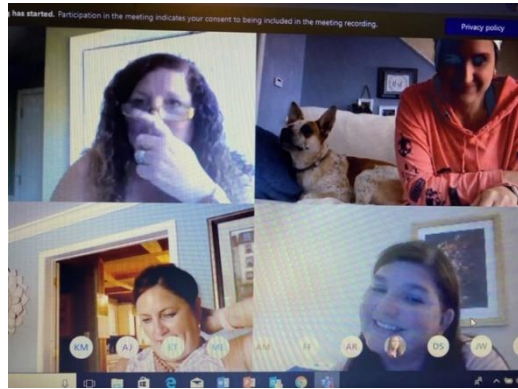

Points to Consider

1. The Teaching and Learning Department will continue to provide virtual professional learning opportunities for teachers and staff throughout the FY 21 school year.
2. The Teaching and Learning and Technology Departments will continue to work with staffs to provide additional RtI and technology training.
