

CHRONOLOGY
Education Logistics Inc.,
GPS/AVL GPS, Field Trip, and Routing 14-460

On August 5, 2013, the Board of Education approved Edulog as the most responsive and responsible bidders to provide GPS, field trip and routing for the District. This recommendation is for the first of fourth and final (1-year) contract renewal options.

This service will increase transportation efficiency with automated tracking of all school buses. Tracking the location of vehicles improves safety and reduce the district exposure to liability.
